This report shall not be reproduced, except in full, without written permission from UL. Results contained within this report only apply to the actual product tested under the testing conditions documented in this report.

Test Results:

Durability Test for Chair Carts/Dollies with Casters:

Testing was performed referencing BIFMA SC-2015, Section 7.

Notes:

- Specimen was subjected to 5000 cycles over ⅛" thresholds.
- Unit load rating: 720 lbs.
- Test Rate: 6 CPM.
- See photo for setup.

Specimen	Cycles	Surface	Observations
9963604	5,000	Thresholds	No loss of serviceability.

Requirement: *There shall be no loss of serviceability to a caster or the cart/dolly.*

Custom Functional/Proof Load Test:

Testing was performed per the requester's instructions.

Notes:

- Unit was loaded with a functional load and proof load provided by the requester.
- See photo for setup (proof load only).

Specimen	Load (lbs.)	Observations
9963604	720	No breakage or loss of function.
	825	No breakage or loss of function.

Requirement: *Information only.*
