Please make sure your passport is valid, secure travel insurance as soon as possible, and check any visa requirements. Taking these essential steps will help ensure a smooth and stress-free travel experience.

Passports

For American citizens traveling with an American passport, your passport must be valid for at least six months beyond your return date. Failure to meet this requirement may result in being refused boarding.

If any passengers in your party do not hold an American passport, they must check with their relevant embassy or consulate to confirm their eligibility to travel.

Please ensure that the names provided at the time of booking match exactly with the names on the passports, as discrepancies may result in amendment fees.

You can also update your passport information through **Manage My Booking** on our website.

Visas

All passengers are responsible for obtaining the necessary visa(s) for their vacation prior to travel.

Visa requirements may differ if you do not hold an American passport. In this case, please contact the relevant embassy or consulate for guidance.

Fines may be imposed if you travel without the correct documentation. Please note that it is your responsibility to ensure you have the required documents before travel and while transiting through the countries included in your itinerary.

Failure to present the correct documents may result in denial of boarding or repatriation, in accordance with government regulations. Please review your itinerary carefully and obtain the necessary visas for the countries you will be visiting during your cruise.

Visas may be required when embarking, disembarking, or remaining on board a cruise ship. Please check your booking on the cruise line's website for further clarification.

Your Responsibilities

Please note that a visa may be required for your cruise, and it is the responsibility of each guest to ensure they have all necessary travel documents for their itinerary. Guests without the proper documentation may be denied boarding of their flight or ship, or refused entry into a country. In some cases, this could result in significant fines, which you would be responsible for paying, and/or immediate repatriation to your home country at your own expense.

Be sure to check your requirements carefully before you travel to avoid unnecessary expense or disruption to your vacation.

Please also make sure to read the Important Information below:

- When applying for your visa, please ensure that all guests' full names match exactly as they appear in their passports. Any discrepancies may result in being denied boarding for your flight or cruise.
- Passport and visa requirements may change and vary by destination. Please note that we cannot accept liability if you are denied entry onto any flight, cruise, or into any country, or if you experience difficulties or incur costs as a result of not having the correct passport and/or required visa(s).
- It is your responsibility to ensure you have all necessary travel and health documents before departure, and you are responsible for any costs incurred in obtaining them. Certain port authorities may also require photo identification when you disembark during your cruise. We strongly recommend bringing photocopies of your passport information page, kept separately from your passport. Carrying a copy with you each time you go ashore provides an official form of identification if required, and may be invaluable in the event of loss or theft of your passport.
