HAND PROTECTION

Velio™ Lightweight Cut Resistant Vend-Packed Gloves Three-Quarter Coated with Latex

Description

Engineered for demanding industrial environments, this lightweight knuckle-coated rubber latex glove delivers exceptional protection without compromising on comfort or dexterity. Featuring a durable 13-gauge shell constructed from Aralene® (enhanced aramid fiber), it offers high-level cut resistance ideal for handling sharp components. The crinkle latex knuckle coating ensures superior grip in both wet and dry conditions, while the glove's thermal resistance withstands contact heat up to 250°C / 482°F for short durations (up to 15 seconds)—making it a reliable choice for tasks involving intermittent heat exposure.
