Electric Scooter

The 36V 350W Long Range Folding Electric Scooter is a sleek, eco-friendly ride designed for daily commutes and city travel. Powered by a 350W motor, it delivers smooth performance and reaches speeds of up to 25 km/h, perfect for efficient urban mobility. The 8.5-inch solid tires provide excellent stability and durability, while the foldable design allows easy storage and portability. Compact yet powerful, this scooter ensures comfort, safety, and reliability on every ride. Ideal for both personal and commercial use, it's a smart and sustainable solution for modern transportation combining convenience, style, and performance in one efficient package.

KEY FEATURES

This 36V 350W folding electric scooter comes packed with smart and practical features for everyday use. Its powerful 350W motor delivers smooth acceleration and consistent performance, allowing riders to reach speeds of up to 25 km/h with ease. The durable 8.5-inch solid tires provide excellent traction and eliminate the worry of flats, ensuring a stable and comfortable ride on urban roads. Designed with portability in mind, its lightweight and foldable frame make it easy to carry, store, or transport in a car trunk. Built for efficiency and reliability, the scooter offers low maintenance and long-lasting performance making it ideal for city commuters, students, and eco-conscious riders seeking a convenient and sustainable travel option.
