# Electric Luggage

This Smart Rideable Luggage blends tech with practical design for easier travel. Its tough aluminum frame provides strength and a sleek style, with a smart lock for security and multi-functional compartments for easy organization.

At 20 inches and only 8.3 kg, it offers plenty of space while staying lightweight. A 500W motor powers it up to 15 km/h for smooth rides in airports, stations, or big venues.

TSA-approved and built for mobility, security, and convenience, it's perfect for modern travelers who want efficiency and comfort.
