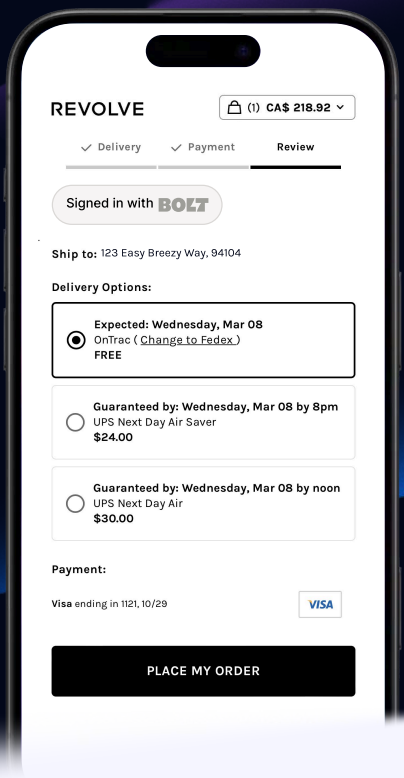
Get to know Bolt

Bolt is the checkout, identity and payments leader powering faster, smarter commerce. Its B2B and B2C offerings form a complementary ecosystem: merchants like Revolve, Kendra Scott and Lilly Pulitzer use Bolt to boost conversion and loyalty, while 80M+ shoppers benefit from one-click checkout and a secure, cross-site identity. Bolt's core product suite—CheckoutOS and the SuperApp, a new all-in-one finance and crypto hub—helps merchants grow while giving consumers convenience and control. From high-risk processing to one-click subscriptions, Bolt replaces fragmented tools with future-ready infrastructure that scales. The result: a frictionless, trusted journey for shoppers—and powerful growth for businesses of all sizes. To learn more, visit bolt.com.



Bolt Checkout

Identify shoppers, power passwordless login, and convert customers—all within your existing tech stack.

- Increase conversion by ensuring accounts stay up-to-date with the latest data from Bolt's network
- Simplify account creation with Bolt, leading to more accounts and richer data
- Automatically recognize shoppers and expand your network–all within your existing checkout
- Developer-friendly and API-driven, keep the existing integrations you currently support
- Implement swift, secure login with Bolt's passwordless login using passkey authentication
