Single Wheel Electric Skateboard

The Single Wheel Skateboard is built for adventure lovers, offering a powerful and versatile ride across city streets, rugged trails, and open roads. Powered by a 700W–1500W motor, it delivers smooth performance and control on various terrains. The intelligent system offers real-time monitoring for a safer, more confident ride. With a range of 35–40 km on a single charge, all-terrain tires for enhanced grip, and an ergonomic design for comfort, it promises a great journey every time. Its durable aluminum alloy body is strong yet lightweight, making it easy to carry. Supporting up to 120 kg, it's perfect for daily commuting and adventurous exploration.
