NEW YORK STATE GIS ASSOCIATION

Recognition of efforts as a

Lifetime Achievement

is hereby granted to

Susan Hoskins

Susan Hoskins is an outstanding individual, bringing a host of skills and a unique energy as an advocate to all things geospatial. She has over twenty years experience in the interpretation of aerial photography for the purpose of mapping and is a faithful and consistent proponent of GIS and geospatial technologies in publications, presentations, and conversation.

Susan is a legend for her geospatial work with 4-H. She is known to tirelessly present, engage, and captivate her 4-H audiences with hands-on activities relating to the geospatial technologies using GPS and GIS. It is the vision of people like Susan, investing in today's youth, that will sustain and advance GIS and geospatial technologies for tomorrow.

In her spare time, Susan Hoskins has been the secretary for the NYSGIS Association Education Committee for many years. Her organizational skills, willingness to host and coordinate the meetings, and her amazing ability to encapsulate the meeting in articulate minutes is part of her incredible skillset.

It is with great pleasure that we recognize Susan Hoskins for all of her contributions to the NYS GIS community.

Awarded: October 2017

Colin Reilly, President
