POMPANO™

BULLHEAD SAFETY® EYE PROTECTION

PFT PERFORMANCE FOG TECHNOLOGY

BH2769PFT

LENS Ice Blue Mirror Performance Fog Technology Polarized

FRAME Matte Black

DESCRIPTION

A lightweight, full-frame style, the Pompano™ is a good choice for many face shapes. The sleek design features embedded TPR nose pieces and temple ends to ensure a comfortable and secure fit. This model features polarized, precision lenses, which filter out bent light waves reducing glare, eye fatigue, and decreasing reflection off surfaces such as water, sand, and snow. The BH2769PFT also features a PFT lens. Thanks to its chemical and physical properties, Performance Fog Technology is a permanent coating that prevents the formation of condensation on the lenses by absorbing the humidity drops.

FEATURES

- PFT - Performance Fog Technology lens: Better than traditional anti-fog! This water-washable, hydrophilic anti-fog lens coating is permanently bonded to the lens to absorb moisture and evenly disperse it, providing clear, fog-free vision
- Polarized lenses filter out bent light waves eliminating glare, eye fatigue, and decreasing reflection off surfaces such as water, sand, and snow.
- Precision lenses block blue rays, which reduces eyestrain, increases visual acuity, and protects from the long-term effects of blue light exposure.
- Dual 8 base curve lenses for full protection and visual correctness

TECHNOLOGY

All Bullhead Safety® Eyewear is made from 100% virgin materials. This style features lenses and frames constructed with the highest quality polycarbonate.
