Testing: Vitest, React Testing Library, Unit Testing, Component Testing, Integration Testing
Tools: Git, GitHub, Jira, Figma, Confluence, Zoho, Notion, Vercel, Swagger, Postman, Storybook
AI-Assisted Development: Claude Code, GitHub Copilot, Codex, AI-assisted coding, debugging, documentation, code review, prompt engineering
Other: REST API integration, Responsive Design, UI/UX best practices, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer

e-CENS |Viernheim, Germany (Full-time/Remote) | January 2025 – Present

- Develop a large-scale analytics and management platform for a major German marketing agency
- Set up a client-side application from the ground up using Next.js, TypeScript, Zustand, and Shadcn UI
- Develop and maintain complex data-intensive features including dynamic dashboards, UTM/QR flow generators, and real-time previews
- Collaborate closely with backend engineers and integrated RESTful APIs using Swagger
- Worked closely with product teams and designers to transform Figma wireframes into responsive and accessible interfaces
- Implement and maintain advanced table functionality including sorting, filtering, column visibility, pagination, multi-selection, and batch operations
- Drive ongoing frontend improvements, including UX refinements, loading-state strategies, error handling patterns, and complex modal workflows
- Create and maintain technical documentation for frontend architecture and component usage

Frontend Developer

LeadsMarket |Kyiv, Ukraine (Full-time/Remote) | March 2023 – December 2024

- Developed and maintained frontend functionality for a publisher platform using React and TypeScript, enabling publishers and affiliates to manage campaigns and monitor lead-generation performance
- Built reusable, responsive UI components for dashboards, campaign management, data tables, filters, and forms, improving consistency and usability across the application
- Integrated backend APIs to retrieve and display campaign data, lead statistics, and performance metrics, ensuring reliable data presentation and user interactions
- Implemented interactive features, form validation, and data filtering to support publishers in managing their campaigns and analyzing performance
- Collaborated with product managers, backend developers, and QA engineers to deliver new features, troubleshoot issues, and maintain application quality
- Optimized frontend components and resolved bugs to improve application performance, responsiveness, and maintainability

Frontend Developer

Galaxy IT | Khmelnytskyi, Ukraine (Full-time/Remote) | July 2022 – February 2023

- Was part of the frontend team of the full cycle digital agency

- Contributed to the frontend development of web applications (SPA, websites) and multiple landing pages using JavaScript (React.js, Vue.js), HTML5, and CSS3
- Integrated client application with headless CMS (Wordpress, Strapi)
- Worked with Firebase for authentication, data storage, and application integration
- Delivered seamless user experiences across multiple client projects through attention to detail in frontend implementation

Junior Frontend Developer

ULTRA IT | Khmelnytskyi, Ukraine (Full-time/Office) |December 2021 – June 2022

- Built company website and landing pages using JavaScript, HTML5, SCSS
- Applied SEO best practices to optimize content and increase organic traffic for client websites
- Collaborated with designers to deliver pixel-perfect, responsive layouts aligned with brand guidelines

---
