JEANTET ADVISES MEWS PARTNERS ON ITS ACQUISITION OF OPEO

Jeantet advised Mews Partners, a business organisation and transformation consulting group, on its acquisition of 100% of the share capital of Opeo, an industrial transformation consulting firm previously backed by Ocean Peak Group.

Founded in 2012, Opeo primarily supports mid-sized companies in their industrial transformation projects and works in particular with players in the life sciences sector.

This transaction enables Mews Partners to strengthen its position in industrial transformation consulting and broaden its service offering by combining its expertise in advising major industrial groups with Opeo's capabilities. The combined group is expected to generate approximately €80 million in consolidated revenue in 2026.

Jeantet's team advised on the corporate aspects of the transaction and comprised Pascal Georges, (Partner), Nicolas Méheust (Associate) and Léo Salvatore (Legal Counsel).

ABOUT JEANTET

Since 1924, Jeantet has been the advisor of choice for key players in the economy at decisive moments: major acquisitions, complex restructurings, high-stakes litigation, capital markets transactions, regulatory crises. An independent firm experiencing strong growth, with ambitious governance, we cover the full spectrum of business law: corporate, tax, employment, criminal, litigation, regulatory, real estate, intellectual property and IT. Our sector expertise is well recognized, particularly in energy, industry, defense, financial services, tech and real estate, and continues to grow with the arrival of new talent. As a collective of 47 partners and 200 associates, we know how to mobilize the full breadth of our expertise within hours to build your strategy and put it into action. The first firm in the market to integrate artificial intelligence, we put this tool to work in service of high-performing advice that creates value for our clients and for society.
