September 24, 2026

Statement of Compliance with the General Product Safety Regulation (GPSR) EU 2023/988

The General Product Safety Regulation (GPSR) EU 2023/988 has applied across the European Union since December 13, 2024, replacing the General Product Safety Directive (GPSD).

Stormtech Performance Apparel Ltd. is committed to complying with GPSR EU 2023/988 and maintaining appropriate product safety, traceability and regulatory controls for products placed on the EU market.

EU Responsible Person / Authorized Representative

Stormtech has established a registered Representative Office in Hungary to support its European product safety and regulatory compliance activities.

For purposes of the General Product Safety Regulation, Stormtech's EU contact is:

STORMTECH PERFORMANCE APPAREL LTD. Kereskedelmi Képviselete
2146 Mogyoród, Bocskai út 92.
Hungary
Email: EUcompliance@stormtech.eu

Stormtech Performance Apparel Ltd. remains the manufacturer of Stormtech products.

Products placed on the EU market are provided with the applicable manufacturer and EU Responsible Person contact information in accordance with GPSR requirements.

Safety and Risk Assessments

Stormtech conducts product safety assessments to identify, evaluate and manage potential risks associated with its products. This includes applicable testing, product documentation and risk assessment to support compliance with relevant product safety requirements.

Product Identification and Traceability

Stormtech maintains product identification and traceability information, including product and batch-related records, to support investigation and corrective action where required.

Market Surveillance and Reporting

Stormtech cooperates with EU market surveillance authorities and maintains procedures to respond to product safety concerns, provide supporting documentation and take appropriate corrective action where required.

Where a product presents a safety risk or a reportable product-related accident occurs, Stormtech follows the applicable notification and corrective-action requirements under GPSR.

Online and Distance Sales

For products offered to EU consumers online or through other means of distance sales, Stormtech provides the information required under GPSR, including applicable manufacturer information, EU Responsible Person contact information, product identification and relevant safety or warning information.

Transitional Products

In accordance with Article 51 of GPSR, products covered by Directive 2001/95/EC that complied with that Directive and were placed on the EU market before December 13, 2024 may continue to be made available on the market.

Accordingly, Stormtech products lawfully placed on the EU market before December 13, 2024 are not subject to retroactive GPSR requirements applicable to products placed on the market from that date.

Ongoing Compliance

Stormtech continues to monitor its product safety and regulatory obligations and maintains appropriate documentation, traceability, reporting and corrective-action processes to support compliance with GPSR.
