# COVID-19 DECISION TREE

Fall 2021

## SYMPTOMS

Schedule COVID testing at **www.milligan.edu/health**

### POSITIVE

**VACCINATED & NON-VACCINATED**

- Isolate for at least 10 days since symptom onset AND at least 24 hours with no fever and improving symptoms
- Follow isolation protocols
- Complete contact tracing process
- **Student**: Contact Health Services, professors, and athletic trainers
- **Faculty and staff**: Contact Health Services, supervisor/VP, and your doctor if needed
- Do not return to class or work until you receive clearance from Milligan Health Services
- If tested elsewhere, report positive test ASAP to www.milligan.edu/health

### NEGATIVE

**VACCINATED & NON-VACCINATED**

- Return to class or work after a 2nd negative rapid antigen test AND more than 24 hrs fever-free and improving symptoms

## NO SYMPTOMS

Have you had a CLOSE CONTACT with someone who has tested positive?

### YES

**VACCINATED**

- No quarantine as long as no symptoms
- Test between 5-7 days after last exposure
- Wear mask in public indoor settings until negative test result

**NON-VACCINATED**

- **Quarantine*** 7-10 days as long as no symptoms have been experienced at any point during the quarantine period. If symptoms occur, quarantine may be extended to 14 days. If quarantine ends before 14 days, there may be restrictions on extracurricular activities, athletic participation, and group functions for four additional days.
- Schedule COVID test
- Follow protocols at www.miligan.edu/health

### NO

**VACCINATED & NON-VACCINATED**

- Monitor for symptoms

**REVIEW FULL PROTOCOLS AT WWW.MILLIGAN.EDU/HEALTH**

**SYMPTOMS:** See www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html

**CLOSE CONTACT:** within 6 feet of an infected person for a cumulative total of 15 minutes or more over 24-hour period

***EXCEPTIONS:** A close contact meeting the following criteria need **not** quarantine:

- Fully vaccinated asymptomatic individuals
- Diagnosed with COVID-19 within 90 days of exposure AND has recovered AND remains without symptoms of COVID-19
- Asymptomatic health science students, health care personnel, first responders, or other individuals who encounter people with COVID-19 as part of their professional or caregiving duties while wearing appropriate PPE
