STEP-BY-STEP GUIDE

VALOR PRO WIRELESS DONGLE PAIRING TOOL

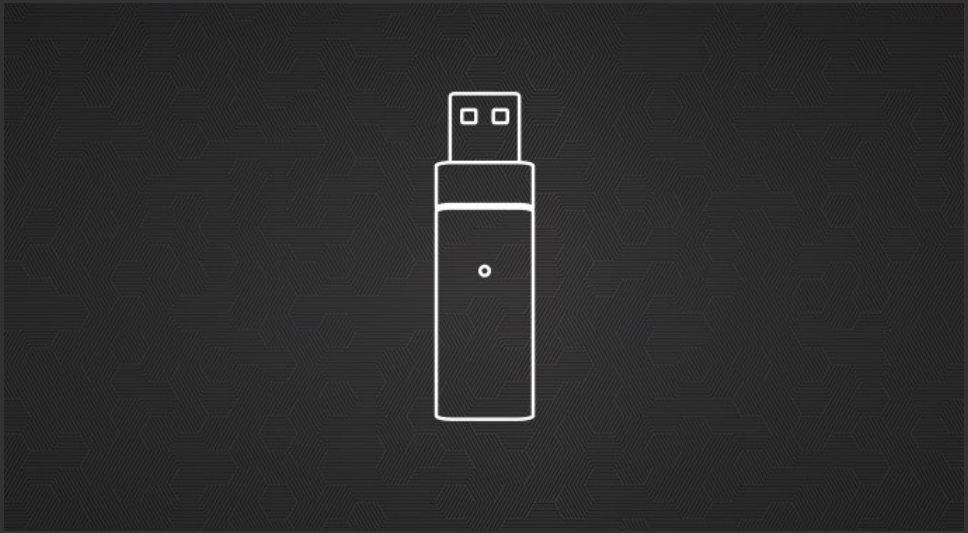
Pair your Valor Pro Wireless Controller to your PC in five steps.

STEP 01 OF 05

01

CONNECT THE DONGLE

Plug the dongle directly into your PC.



STEP 02 OF 05

02

SET PC MODE

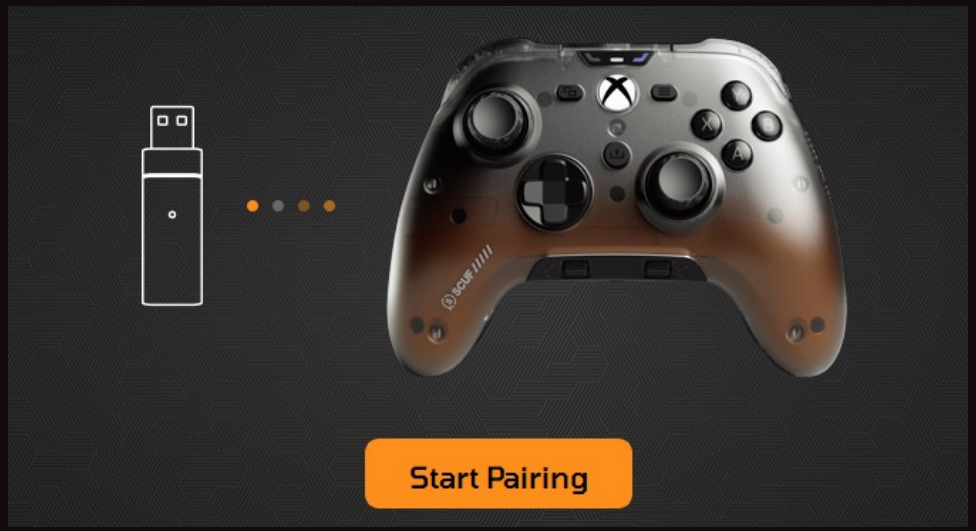
Power on the controller. Set the bottom mode switch to PC mode.

STEP 03 OF 05

03

ENTER PAIRING MODE

Turn the controller over. Press and hold the View button + Xbox button for 5 seconds, until the light bar starts flashing quickly.



STEP 04 OF 05

04

START PAIRING

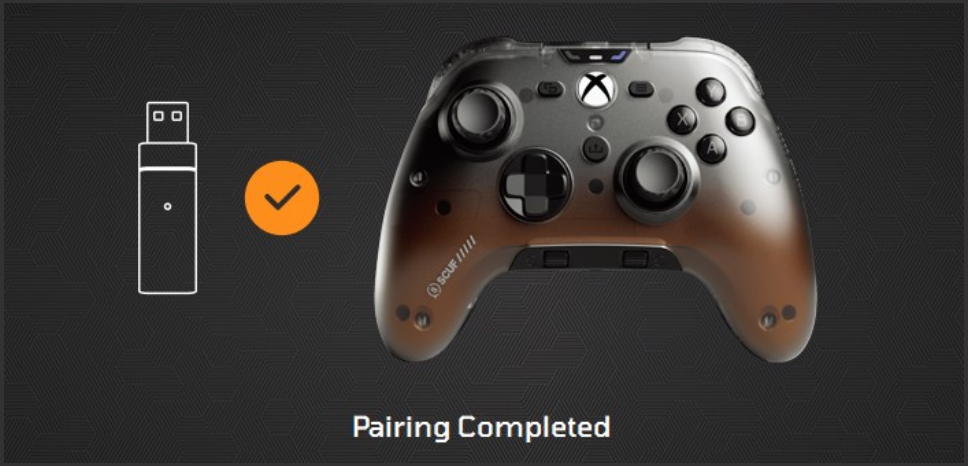
In the pairing tool, click “Start Pairing” to begin.

STEP 05 OF 05

05

PAIRING COMPLETE

When the tool shows “Pairing Completed,” the pairing is successful. Click Finalize.



PAIRED.
READY TO PLAY.

Your Valor Pro Wireless Controller is connected to your PC.
