The ELTEN Wellmaxx series is getting bigger. The MILES is a new member of the Wellmaxx family, a safety half-shoe and boot in S3. Excellent cushioning thanks to Infinergy midsole from BASF. The sporty, almost classic-looking MILES has a plastic cap and a steel intermediate sole. Cow leather and hydrophobised nubuck leather are water resistant.

OutDry Technologies srl

+39 0331 677611 www.outdry.com

OutDry® uses a one-piece patented construction process that creates a waterproof breathable barrier. This impenetrable layer is heat-bonded directly to the outer fabric, leaving no seams, no gaps, and no way for water to get in. Compare that to traditional waterproof technology. Water gets in and stays in, collecting in the space between the inner and outer layers, making them heavy and wet. OutDry improves fit and dexterity, keeping you drier, lighter and more comfortable.

STS sells respiratory protective equipment and will launch the new full face mask: FS01. The concept of FS01 is to develop excellent visibility with the anti-fog and anti-scratch coating. Even more, using the specific particle filter CP-P3R, due to the offset connector, it gives an extremely good visibility.
