What's Great About the Machine	Trailer has low use and has a few years of active rental service. Trailer's GVWR under 10,000 Lbs. & therefore does not require a commercial license to tow. Easy to operate trailer platform with remote control and functions great. Air suspension equipped with all axles makes moving a critical load, safer to tow, compared to standard trailers.
What Needs Work	1 suspension shock has some signs of slight leakage. 2 tires need to be replaced. Trailer lights and electric brakes not tested.
