Notes / Description

The hours appear to be low for the age of the unit. The lower sheet metal on the basket is paint is worn off and metal is rusted and bent. The rails on the basket have paint missing and metal is rusty. The fire extinguisher is missing from the basket. The EMS panel is showing there is a red light warning and the unit either has a check engine warning or an engine oil pressure problem. The engine coolant is low in the reservoir. The engine oil filter is rusty. The exhaust pipe tip is rusty. The plastic fuel tank appears to have a hole rubber into it on the side. The engine oil appears to be above the full mark on the dipstick. The hydraulic hose fittings are rusty to going to the body lift cylinder. The hydraulic hose appears to have cracks in it by the front left steering cylinder. The rear right tire has gouges in the sidewall by the lip of the wheel and the front left tire has a small gouge in the rubber by the lip of the wheel. There is green fluid under the unit at the time of inspection it possibly appears to look like coolant. The travel alarms did not operate in the video.
