General Appearance

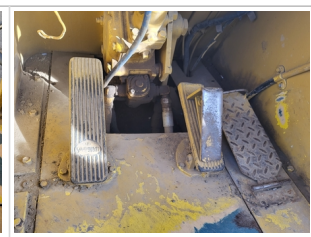

Close-Up Exterior Photos

Seller Onboarded Machine v2.0

| | | | |
|--------------------------|--|--|---|
| |  |  |  |
| |  | | |
| Exterior Comments | Exterior is in good overall condition with wear and tear as expected for the age of the unit. All the doors and panels work as required. Driver side window is missing the glass/plexiglass. | | |

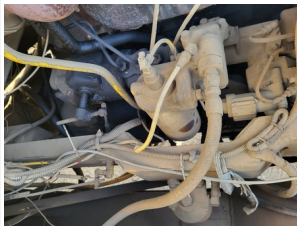

Control Station

| | | | |
|------------------------|---|--|---|
| Control Station |  |  |  |
| |  |  |  |
| |  | | |

Seller Onboarded Machine v2.0

| | |
|----------------------------------|---|
| Control Station Overall Comments | Brand new seat and rails installed less than a couple of months ago, no AC, there is a heater in the cab but doesn't provide any heat because of the way it's plumbed in. All the gauges don't work, the ones that work are air, battery, oil pressure, clutch pressure. New glow plugs in the motor. |
|----------------------------------|---|

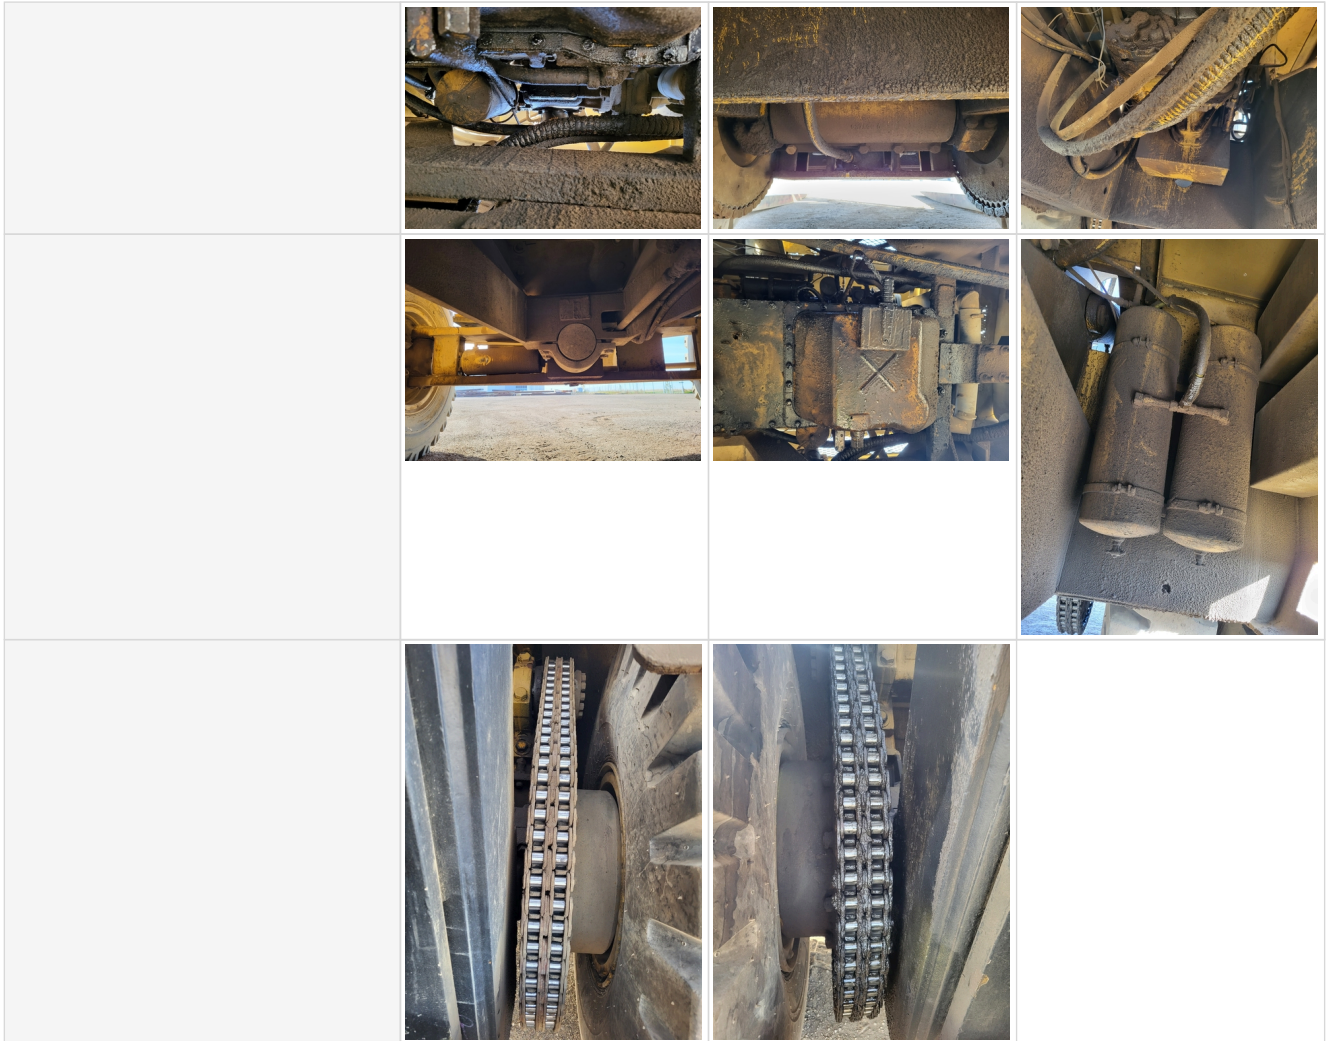

Engine

| | | | |
|-------------------------|---|--|---|
| Engine Compartment |  |  |  |
| |  |  |  |
| |  |  |  |
| Engine Overall Comments | Engine runs well, newer turbo installed about 5 years ago, upgraded PTO pump to handle the hydraulic system, New radiator installed at the same time pump was upgraded. | | |

Drivetrain Components

| | | | |

| | | |
|---------------------------|--|--|
| |  | |
| Hydraulic System Comments | Hoses on mast leak for side shift, due to cold temperature caused them to Crack. Main lift cylinder rebuilt. | |

Chassis

| | | | |
|----------------|---|--|--|
| Chassis Photos |  |  |  |
| |  | | |
| Comments | No apparent issues, the entire front frame is free of any cracks. | | |

Functionality Assessment

| | |
|---------------------------------|--|
| Is this machine fully operable? | Yes |
| Video - Operational or 360 | Click to Download |
| What's great about this machine | Great unit ready to do heavy lifting upto 40000lbs anytime, an old and slow machine that will let you know what it can and can't do. Engine works well, tires are about 3 years old, update wiring for ignition. |
| What needs work | Side shift hoses on the mast leak, hard to start in extreme cold temperatures, block heater has a short in it, windows in the cab needs some work, small fuel tank and hard on gas. |
