

# SLPIC & SLPIC TEAMS

## South Lincoln Revitalization Project

Planning  
&  
Zoning

**Goal**  
Create a vibrant,  
walkable village  
center that offers a  
mix of housing &  
commercial choices to  
better meet locally  
identified needs

Placemaking

MBTA

Wayfinding

# Wayfinding

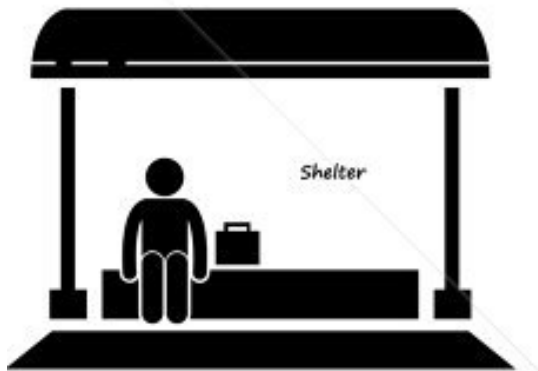

Wayfinding is a town wide system used to encourage people to walk, bike and drive to all that Lincoln has to offer. The Town was recently awarded Complete Streets funding.

A portion of the \$400,000 Complete Streets grant will help fund wayfinding signage, a new sidewalk, bike amenities, kiosks, and circulation improvements in & around Lincoln Station.

# MBTA

Exploring site improvements such as ADA accessibility, pedestrian shelters, bicycle amenities and improved signage

# Placemaking

Revitalization of the underutilized green space located at the rear of the Mall at Lincoln Station and adjacent to Lincoln Woods into a vibrant public space

SLPIC partnered with the Rural Land Foundation (RLF) & Lincoln Woods to design a fabulous community green space including outdoor seating and a new playground

SLPIC is exploring funding options such as crowd funding

# Village Planning & Zoning

Creating new land use regulations that will encourage a mix of housing and commercial choices to better meet locally identified needs

SLPIC hopes to bring new land use regulations to the Town for a vote at a special Town Meeting in November 2018

# Public Engagement
