Visualize everything

ANALYTICS offers you the graphical visualization starting from profiles, pages, and groups but also contributions, media, and commentaries. Visualize links based on friendships, reactions (likes), or comments.

Find intersections

ANALYTICS shows you common friends, liked and commented contributions, or liked media in a graph. Your results can be saved in a PDF or Display HTML file.

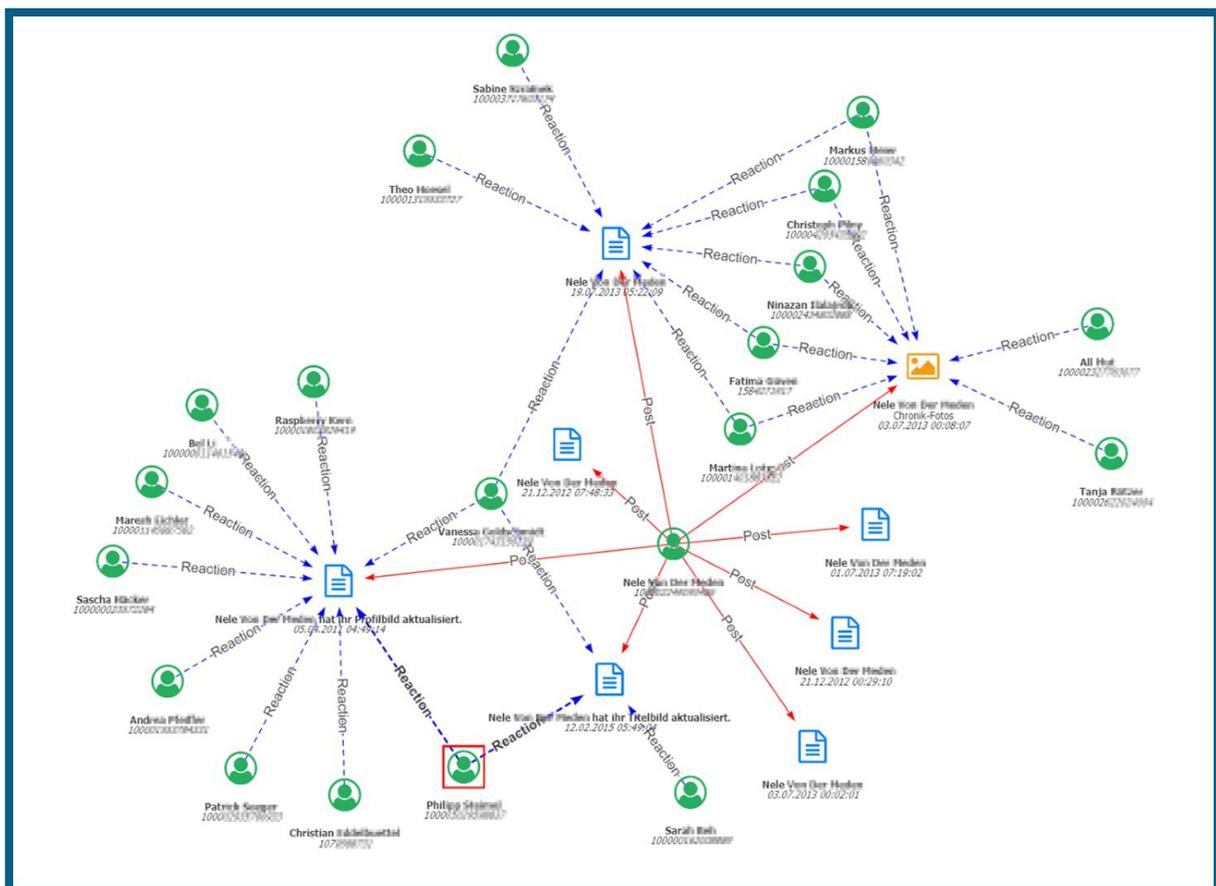

Better data search

With ANALYTICS, the Dataexplorer was optimized. Profit from an improved search performance and from an optimized marking option (flags).

Test it

Test the SNH - live and based on your current investigation. Convince them itself from the efficiency of this sophisticated and efficient investigation tool.
