RE: BIOTERRORISM ACT

To Our Valued Customer:

On October 10, 2003, FDA published interim final rules that require all food facilities (domestic and foreign) to register with the FDA. Food facilities are defined as "...those engaged in the manufacturing, processing, packing or holding of food for human or animal consumption in the United States...." Dole Packaged Foods, LLC. (DPF), has reviewed the Public Health Security and Bioterrorism Preparedness and Response Act of 2002. All of DPF's business units are aware of FDA's final regulations concerning registration of food facilities and prior notice of imported foods, and have complied with these provisions, as required, by December 12, 2003.

**We also certify that we have completed the bi-annual re-registration as required by December 31, 2016.**

Enclosed is the DPF facility that works with your company and the registration number assigned by the FDA. Should you have any questions or require additional information, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Hany Farag", is written over a faint, illegible printed name.
