ALLERGEN PROGRAM STATEMENT

Dole Packaged Foods, LLC has effective cleaning and segregation methods meant to ensure that our products do not contain any undeclared allergens from the eight common allergens defined by FDA. These allergens are: peanuts, soybeans, milk, eggs, fish, crustaceans, tree nuts, and wheat.

The following programs are in place to manage and prevent cross contamination:

- All labels of incoming ingredients are reviewed for presence of known allergens
- Good Manufacturing Practices (GMPs) and Standard Operating Procedures for cleaning and sanitation are followed.
- Manufacturing employees are trained in allergen control procedures.
- All finished product label ingredient statements clearly identify allergenic ingredients.

Allergen statements specific to the items you purchase are available upon request. Should you have any questions or require additional information, please contact contact Hany Farag, Vice President, Quality and Regulatory Affairs at (805) 601-5611. Email Hany.Farag@doleintl.com
