A Legacy Cast in Tradition

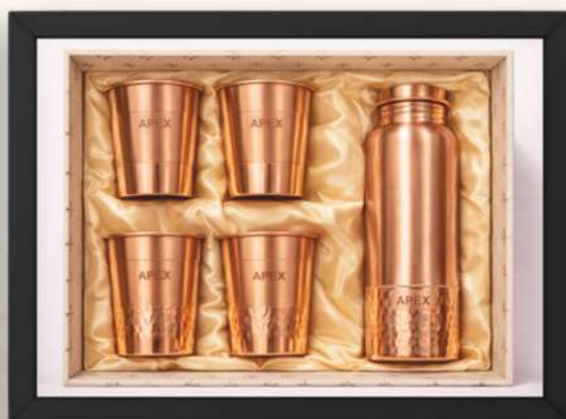

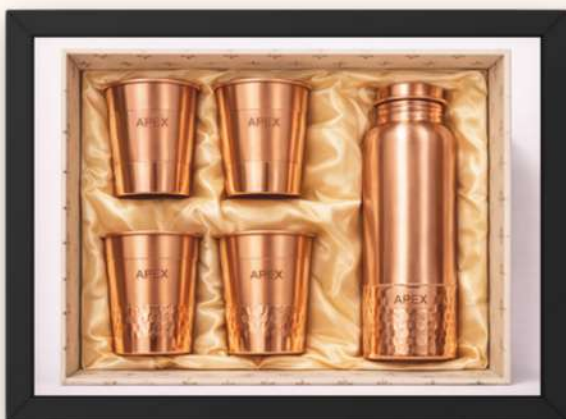

"Quality is not just a skill, it is a habit passed down through generations."

About us:-

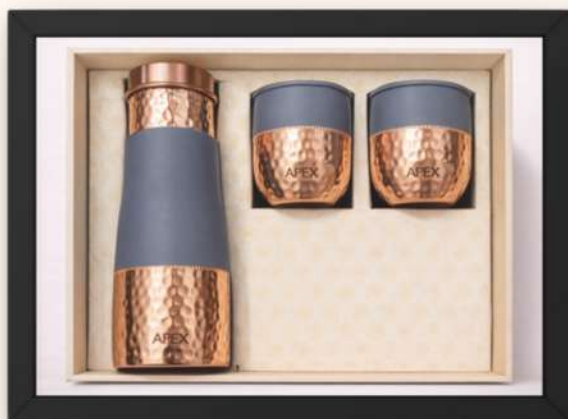

The story of **Apex Overseas International** is not just about business; it is a heritage preserved over 40 years. It began with the craftsmanship and entrepreneurial spirit of Late **Shri Satyadev Mishra, the great-grandfather** of our present founder. What started as a humble domestic copper utensil business has stood the test of time. For nearly four decades, we supplied high-quality vessels across India, earning a reputation for purity and durability.

In the last decade, we transcended borders, expanding internationally to major countries across Europe, supported by one of the strongest supply chains in the global copper market.
