JOOSEPH'S is seeking established agencies for kids' fashion all over Europe.

The Swiss brand "joseph's" with its five cute little monsters was established in 2016. The apparel and accessories collection for 0-4-year-old toddlers has a super lovely urban look. Fantastic colour combinations and special little details conjure a sparkle in the children's eyes. The design office is located in Zurich, where joseph's catches the Swiss magic and brings it into a wonderful new way of an organic Babies and kids collection.

In order to continue growing, we are looking for established agencies in kids' fashion all over Europe.

If you believe the brand joseph's and your agency suit together, we would appreciate to get in to contact personally.
