

EPA Pesticide Training Permit

20-Jun-2024

Mr. JEAN PIERE SALGADO MIRANDA
7 GARTON ROAD
SPRING FARM NSW 2570

PERMIT DETAILS

Permit number: 5120039 Issued date: 20/06/2024 Expiry date: 20/06/2026
Licence Class: PTP - Pest Management Technician Training Permit

Mr. JEAN PIERE SALGADO MIRANDA is hereby issued with a training permit under the Pesticides Regulation 2017 by the Environment Protection Authority.

General obligations and requirements of pesticide users are set out in the Pesticides Act ("the Act"), and Regulations made under the Act and any Codes of Practice referred to therein. In particular, trainees are required to keep and maintain a record of any fumigation work or pest management technician work in accordance with cl 14 of the Pesticides Regulation. This includes, but is not limited to, keeping a record of the names of each supervisor under which the trainee performs any work authorised by this permit. The EPA advises that you carefully read the provisions of the pesticides legislation to ensure that you are fully aware of your obligations. For your information, copies of the Pesticides Act 1999 and Pesticides Regulation 2017 can be accessed and downloaded via the EPA's website at <http://www.epa.nsw.gov.au>.

As the holder of an EPA Pesticides Training permit you are responsible for ensuring that the mailing address is current. Penalties apply for applying pesticides without holding a current and appropriate permit or licence.

If you have completed the prescribed qualification prior to the training permit expiring, you may apply for a licence to carry out prescribed pesticides work. If the training permit expires prior to you completing the prescribed training and obtaining the prescribed qualification you must apply for a new training permit if you will be undertaking any fumigation work or pest management technician work.
