PAUL— VINCENT VAN DUYSSEN 2016

1—
7

Paul is a set of elegantly proportioned sofas with reassuring lines, elements that emphasize Vincent Van Duysen's expressive rationality. The project includes linear sofas, angular compositions, chaises longues and islands, all with a single seat cushion. Paul features generous dimensions, distinctive double seams and great comfort, elements that look good, even in the center of the room. The impression is lightweight, accentuated by the neat design of the pressure die-cast aluminum feet. Items featuring considerable depth complete the project, for a comfortable, luxurious and cosy way of sitting.
