

## LAWRENCE BED

RODOLFO DORDONI DESIGN

**Struttura:** giroletto monoscocca autoportante in legno multistrati di forte spessore. Il giroletto è progettato per accogliere al suo interno molle insacchettate ricoperte in superficie da uno strato di poliuretano espanso ad alta resilienza (esente da CFC). Un pannello di multistrati forato, posto alla base delle molle, agevola l'aerazione. Testata in multistrati, imbottita con poliuretano espanso a quote differenziate ad alta densità. Tutte le parti imbottite sono rivestite con fibra termolegata ed accoppiata con tela di cotone bianca che conferisce morbidezza e sofficietà alle imbottiture isolandole dal tessuto, garantendo igiene al prodotto. Ulteriore rivestimento in tessuto tecnico traforato nella parte superiore del giroletto, che permette una maggiore traspirazione della struttura a molle. La confezione della testata è contraddistinta da cuciture dal carattere grafico e moderno. Le testate si agganciano al sommier attraverso un pratico sistema di innesto a baionetta.

**Sfoderabilità:** rivestimento completamente sfoderabile in tessuto o pelle. Per facilitare la rimozione delle fodere, è possibile sfilare la testata dal giroletto tramite un sistema di innesto a sgancio rapido.

**Basi:** portanti in estruso di alluminio (disegno esclusivo Minotti Studio) verniciate extra-lucido anti-touch nel colore Bronzo chiaro. Appoggio a terra tramite scivolanti in nylon.

**N.B.:** data la struttura del letto, non è possibile inserire la rete e regolare l'altezza del materasso.

**Structure:** one-piece, free-standing bed frame in very thick plywood. The bed frame is designed to accommodate pocket springs covered with a layer of high-resilience, (CFC-free) polyurethane foam.

A perforated plywood panel, placed under the springs, facilitates the circulation of air. Headboard in plywood, padded with high-resilience, variable-density polyurethane foam.

All of the padded parts are covered in heat-bonded fiber laminated to white cotton fabric that lends a soft fluffiness to the padding while segregating it from the fabric, ensuring the product is both natural and hygienic. The upper part of the bed frame is covered with an additional perforated fabric covering that allows greater circulation of air around the sprung structure.

The headboard is equipped with two headrests to allow optimum reading support and comfort.

The headboard features contemporary, graphic stitchings.

The headboards are held to the sommier by means of a practical bayonet coupling.

**Covers:** fabric and leather covers are completely removable. To facilitate removal of the coverings, the headboard can be lifted out of the bed frame by means of a quick set and release coupling system.

**Bases:** weight-bearing parts in extruded aluminum (exclusive Minotti Studio design) with high-gloss, anti-fingerprint, painted Light Bronze color finish. Rests on nylon slides.

**N.B.:** given the architecture of the bed, it is not possible to insert a regular slatted base, or adjust the height of the mattress.

**Gestell:** Selbsttragender Bettrahmen in Schalenbauweise aus Schichtholz von erheblicher Dicke. Der Bettrahmen enthält einen Taschenfederkern, der mit einer Lage aus hochelastischem Polyurethanschaum bedeckt ist (FKW-frei).

Eine gelochte Schichtholzplatte als Unterlage der Taschenfedern sorgt für die richtige Belüftung.

Das Kopfteil aus Schichtholz ist mit hochdichtem, verschieden dick geschäumtem Polyurethan gepolstert. Alle Polsterteile sind mit thermofixierter Faser bezogen, kombiniert mit weißem Baumwolltuch, was der Polsterung eine weiche, elastische Note verleiht, sie aber vom Bezugsstoff trennt und damit Natürlichkeit und Hygiene des Produktes garantiert.

Ein weiterer Bezug aus technischem Netzstoff bedeckt den oberen Teil des Bettrahmens, um eine bessere Belüftung der Federkernstruktur zu garantieren.

Das Kopfteil hat zwei Kopfstütze, die optimales Komfort zum Lesen bieten.

Das Kopfteil hat eine moderne graphische Absteppung.

Die Kopfteile sind mit dem Sommier mit einem praktischen Bayonetsystem verbunden.

**Abziehbarkeit:** Stoff- oder Lederbezug vollkommen abziehbar. Um das Abziehen der Bezüge zu erleichtern, kann das Kopfteil über ein praktisches, schnelles Stecksystem vom Untergestell abgenommen werden.

**Grundgestell:** Tragende Teile aus Aluminiumpressguss (exklusives Design von Minotti Studio), Bronzfarbig lackiert mit glänzendem Anti-Touch-Finish. Bodenaufgabe mit Gleitschutz aus Nylon.

**N.B.:** Die Struktur des Bettes erlaubt es nicht, einen Bettrost einzufügen und die Matratzenhöhe zu regulieren.

**Structure :** tour de lit monocoque autoportante en contreplaqué de forte épaisseur. Le tour de lit est conçu pour accueillir des ressorts ensachés dont la surface est recouverte d'une couche de polyuréthane expansé haute résilience (sans CFC).

Un panneau de multiplis perforé, favorisant l'aération, est situé à la base des ressorts.

Tête de lit en multiplis, rembourrage en polyuréthane expansé à densité différenciée et haute densité.

Toutes les parties rembourrées sont recouvertes de fibre thermoliée doublée de toile de coton blanc donnant avantagé de souplesse et de moelleux aux rembourrages en les isolant du tissu, afin de garantir un produit naturel et hygiénique. Sous-housse en tissu technique perforé dans la partie supérieure du tour de lit, permettant à la structure à ressorts de mieux respirer.

La tête de lit est équipée avec deux appuie-têtes offrant un appui supplémentaire idéal pour la lecture.

La confection de la tête de lit est caractérisée par des coutures au caractère graphique et moderne.

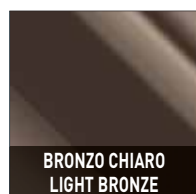

Les têtes du lit sont crochées au sommier avec une pratique système à baionettes.

**Déhoussage :** revêtement entièrement déhoussable en tissu ou cuir. Pour faciliter le déhoussage, on peut désolidariser la tête du tour de lit grâce à un mécanisme d'enclenchement et déclenchement rapide.

**Bases :** portantes en aluminium extrudé (d'après un dessin exclusif de Minotti Studio), peinture extra-brillante anti-trace de couleur Bronze Clair. Complétée de patins glisseurs en nylon.

**N.B. :** étant donné la structure du lit, il n'est pas possible d'introduire de sommier à lattes ni de régler la hauteur du matelas.
