

40 CFR §257.94(e)(3) NOTIFICATION FOR ESTABLISHMENT OF ASSESSMENT MONITORING PROGRAM -
SAN MIGUEL ELECTRIC COOPERATIVE, INC.

In accordance with 40 CFR §257.94(e), the owner or operator of a coal combustion residuals unit must establish an assessment monitoring program meeting the requirements of 40 CFR §257.95 if a statistically significant increase over background groundwater quality is identified by the detection monitoring program, and prepare a notification stating that an assessment monitoring program has been established. The notification must be placed in the facility's record within 30 days of establishing an assessment monitoring program. 40 CFR §257.105(h)(5). The notification must be sent to the State Director, and posted to the CCR website within 30 days of placing the notice in the facility's operating records. 40 CFR §257.106(h)(4), and §257.107(h)(4).

An assessment monitoring program has been established at the San Miguel Electric Cooperative, Inc. Generating Station Ash Pond A (North), Ash Pond B (South), and Equalization Pond located in Christine, TX.
