The feel good **factor**

'LINTELOO IS  
ALL ABOUT  
COMFORT  
AND  
THE JOY  
OF LIFE'

LINTELOO was founded in 1994 by Jan te Lintelo and is known for **‘the feel good factor’** connecting passionate people from around the world. The creativity of the designers and dialogue throughout the product development is key to a successful collection.

# LINTELOO STORY

LINTELOO

In 1994, more than fifteen years before trend forecaster Lidewij Edelkoort declared ‘well-being’ one of the most important international trends, Jan te Lintelo (b. 1954) started a brand that radiates ‘enjoying the good life’ in every possible way. Raised by parents who owned a furniture store in the Netherlands, and having worked for Dutch design companies Pastoe, Rohé and Gelderland, he had noticed the domination of minimalism in the early nineties. British and Italian design gurus were promoting an anonymous, sterile interior style in which practically anything personal was hidden in cupboards, and anything ‘comfortable’ expelled to the bedroom. ‘I always said “let’s make a very big sofa! And why not add some comfortable footstools and extra cushions?” The reply was always: “That won’t sell.” So he decided to produce one himself.

LINTELOO’s first international success was the now classic sofa Easy Living, which Jan te Lintelo designed himself. It is a simply shaped sofa that is extremely comfortable, due to its solid materials, sumptuous fabrics and ergonomic intelligence. ‘Our collection has just that little bit more in size and fabrics with matching cushions’. For example, we use beautiful leathers that are tanned in a natural way and gorgeous to the touch.’ ‘Do sit down,’ Jan tells

visitors arriving in his showroom. ‘How does that feel? Comfortable isn’t it?!’

LINTELOO’s corporate colour is bright orange, reflecting its Dutch roots, though nowadays designs by LINTELOO are sold all over the world. The company, with its head office and showroom in Zeist, has more than 250 dealers worldwide and permanent showrooms in Cologne and Zeist. The cosmopolitan flair of the collection can be attributed to a collaboration with internationally renowned designers like Paola Navone, Niels Bendtsen, Anders Nørgaard, Jan des Bouvrie, Roderick Vos, Sebastian Herkner and Yabu Pushelberg. A part of the collection is designed by Jan te Lintelo.

Over the years, LINTELOO has produced a series of successful designs that are still very much in demand today. ‘The collection as a whole doesn’t have to radiate a single rigid style,’ Jan explains, ‘as long as all the items are related to one another, like family. That’s why I am so happy with the designers I work with. They don’t all have the same signature, but they do all share the same philosophy. They work hard and think out of the box, while respecting traditional craftsmanship. And they all enjoy life as much as I do.’
