

MAKURA

design **Piero Lissoni**
2016

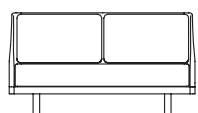

Il letto tessile Makura interpreta una nuova concezione di calore domestico, tra razionalità e sensualità. Sospeso da terra, Makura ha una forma accogliente e invitante grazie alla testata sinuosa e avvolgente e alla presenza di comodi cuscini removibili. La cura del dettaglio che caratterizza i prodotti Porro si ritrova nella morbida curva che raccorda testata e giroletto.

The textile bed Makura interprets a new conception of domestic warmth, among rationality and sensuality. Suspended from the floor, Makura has a cozy and inviting shape thanks to the sinuous and wrapping headboard and to the presence of comfortable removable pillows. The attention to details that characterizes Porro products is found in the smooth curve that connects the headboard with the structure.
