

Welcome to the Mesquite FedEx Ground Station

The Mesquite station will be part of the FedEx Ground network of more than 560 facilities. This state-of-the-art facility exhibits FedEx Ground's commitment to technological innovation that drives our superior accelerated service. In fact, FedEx Ground is faster to more overall locations, including more residential locations, than its primary competitor.

Package volumes for FedEx Ground have doubled in the last decade, and we have opened 11 new hubs and expanded or relocated more than 500 local facilities to account for this tremendous growth. We continue to strategically invest in our network – including this fully automated station in Mesquite – to boost daily package volume capacity and further enhance the speed and service capabilities of the FedEx Ground network.
