**FWI** FOUR WINDS INTERACTIVE

The FWI Store Houses the Building Blocks of Your Visual Communications Network

A One-Stop-Shop

The completely redesigned FWI Store 2.0 has hundreds of configurable apps, templates and plugins that make it easy to quickly and efficiently customize your network. With all of the tools you need to optimize your Visual Communications network in one spot, you'll find:

Apps

Leverage prebuilt, configurable apps to quickly solve your business challenges. Simply download new apps, customize them to fit your brand guidelines and deploy them across your Visual Communications network. The FWI Store has apps purpose-built for multiple industries, departments and business focuses.

Content

Access hundreds of content pieces, including professional photographs that can be used as template backgrounds, region backgrounds, standalone imagery and more. These assets can be quickly downloaded and immediately leveraged in your templates.

Plugins

Plugins and integrations let you showcase real-time, relevant information in a digestible way. With solutions for social media, CRMs, webcams and more, it's never been easier to leverage important data and showcase it on your screens.

Templates

Choose from dozens of prebuilt templates to jumpstart your network's creation. Once you've downloaded the template layout that you want, simply drag-and-drop your own content into the predefined regions. Available in portrait and landscape layouts, each template can be customized to fit your needs.

Find Only What You Need

Leveraging the latest in user experience design, the FWI Store 2.0 features multiple enhancements aimed at improving the overall customer experience. Considering the sheer amount of apps available, advanced search functionality enables users to filter by multiple criteria, including:
