

Adjusting Soft-Close Drawer Slides

INTRODUCTION

This short video will guide you through removing, installing and adjusting the height of a drawer with the Soft-Close feature.

Lincoln Park chest 23563 (JPG - STILL)

PART 1: Removing a drawer from a case with soft-close slides

1. Begin by opening the drawer to the **Full Open** position.

2-Open drawer view (JPG - STILL)

2. Squeeze both handles on the drawer clips located on the bottom of the drawer in the front corners.

3-Close-up drawer clip (JPG - STILL)

3. As you squeeze the handles, **Lift and Pull** the drawer forward out of the cabinet and off the drawer slides.

PART 2: Installing a drawer on soft-close slides

1. When you are ready to install the drawer, you will begin by opening the drawer to the **Full Open** position.

Part 2_Install Drawer (MP4 VIDEO)

2. Place the drawer on the slides as far back as possible, and make sure the notches in the bottom back corners of the drawer box fit over the drawer slides.

Part 2_Install Drawer (MP4 VIDEO)

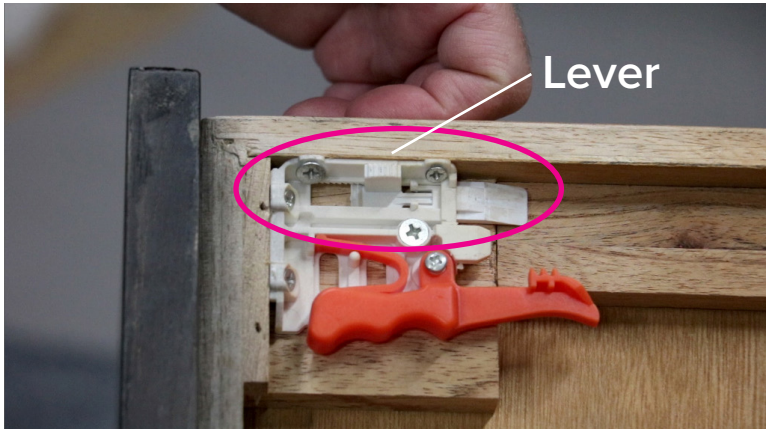

3. When the drawer is resting on the slides, and the slides are in the notches in the drawer back, reach underneath to pull the slides forward until they snap into the drawer clips.

PART 3: Adjusting the drawer up or down

1. If the gap between the top of the drawer and the case is too large or too tight, you may adjust the drawer height. This may be done without removing the drawer from the case. Also note that each side of the drawer may be adjusted up or down independently of the opposite side.

Part 3_Adjust Drawer Height (MP4 VIDEO, FREEZE - FRAME)

2. With the drawer installed in the case, locate the drawer clips on the bottom side of the drawer at the front corners. Within the clip is a **Lever** that functions to raise and lower the drawer in the opening.
3. To **Lower** the drawer in the opening, press and slide the lever forward (to the FRONT of the case). To **Raise** the drawer, press and slide the lever backward (toward the BACK of the case).
