

# SIMPLY EXCEPTIONAL. IN EVERYDAY CHALLENGES.

The MAN TGE **Next Level.**

# MAN TGE NEXT LEVEL

A photograph of a light-colored MAN TGE Next Level van parked on a city street. The van is positioned in the center-right of the frame. In the background, two people are walking away from the camera on the left, and a woman in a white jacket is walking towards the camera on the right. The scene is set under a modern building with large glass windows and a concrete overpass. The lighting suggests it's either early morning or late afternoon, with long shadows and a warm glow. The text "WE HAVEN'T REINVENTED THE WHEEL. JUST ABOUT EVERYTHING ELSE." is overlaid in the top left corner in a bold, sans-serif font. The word "EVERYTHING" is highlighted in red.

WE HAVEN'T REINVENTED THE WHEEL.  
JUST ABOUT **EVERYTHING ELSE.**

**The MAN TGE Next Level gets the job done. Because it's more than a van. It's the truck among vans.** Since its 2017 debut, the award-winning MAN TGE has simplified the workday for drivers across diverse industries, encompassing logistics, forestry, passenger transportation, and construction sites. For the 2025 model year, the MAN TGE Next Level is prepared for any task. Bearing a new name, it enhances every workday – both today and tomorrow.

With its comprehensive technological update, encompassing the redesigned driver's workplace alongside new and improved assistance systems, the MAN TGE Next Level offers a substantial leap in comfort and safety. When combined with powertrain enhancements and a new digital architecture, it fulfils our commitment to MAN customers: streamlining business operations to make daily transport effortless, efficient, and successful.

# A VAN OF ITS WORD.

Experience the MAN Customer Promise in the MAN TGE Next Level.

## Safety

Thanks to its redesigned E/E digital architecture and the possibilities it brings, the MAN TGE Next Level has the brains and brawn to meet current and future legal regulations and heightened demands. With enhanced safety for drivers and road users, new standard and optional assistance systems, and increased vehicle security through protection from digital manipulation, it provides everything needed to ensure safer transports, minimise downtime, and consequently reduce follow-up costs.

## Driver Orientation

The best place to start your workday? How about a completely modernised cockpit? The revamped driver's workspace boasts enhanced features for superior driving comfort, including class leading assistance systems. Central to this upgrade is the new digital dashboard, providing a new intuitive interface. With a holistic approach aimed at reducing driver stress and enhancing focus, the MAN TGE Next Level elevates your driving experience to a new level of relaxation.

## Solution Provider

The MAN TGE Next Level goes above and beyond to address a multitude of daily transport needs. It's available in a wide array of variants and offers a plethora of practical features. Need business solutions? The MAN TGE Next Level provides a comprehensive package, ranging from readily available factory vehicles to customisable options by bodybuilders, as well as tailored transport solutions, digital services, MAN financing, ProfiDrive® driver training, extended warranties, and maintenance contracts.

## Partnership

At MAN, we place our customers' needs at the centre of everything we do. Whether it's advice, support, or special demands, there's no request that our van specialists can't handle. They offer a wealth of industry expertise as well as strong connections to renowned body manufacturers. That's why our customers can rely on top quality and a strong partnership throughout the entire vehicle life cycle – whether it's in the workshop, on the road, or when they need accessories and parts.

FEEL AT HOME,  
AT WORK.

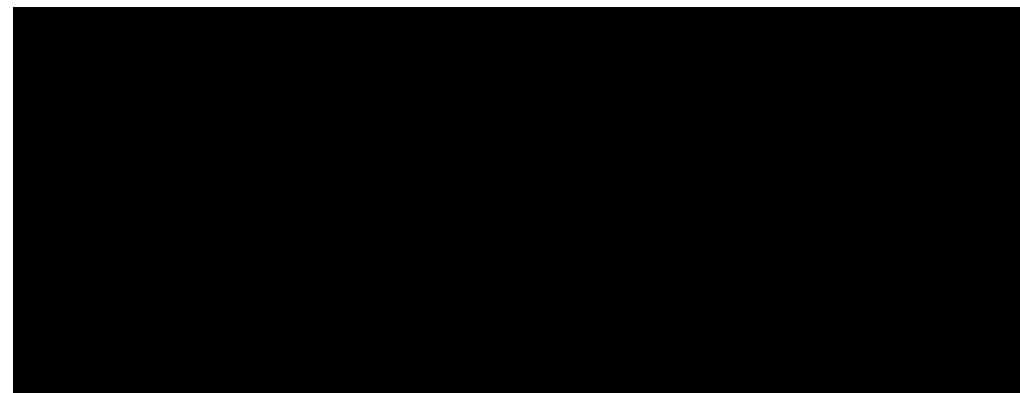

# NEW INTERIOR.

The new interior of the **MAN TGE Next Level** is designed to ensure your comfort throughout the entire workday. It offers all the modern technological comforts, allowing you to focus on the essentials whether you're navigating traffic or taking a break.

## New Interior

- Ergonomic multifunction steering wheel
- MAN Media Van Navigation Business with 12,9" display<sup>1</sup>
- MAN SmartLink smartphone integration
- Digital instrument panel
- Electronic parking brake
- Keyless Go
- USB-C
- Automatic gear-shift lever

<sup>1</sup> Additional equipment at extra charge.

### Ergonomic multifunction steering wheel

You won't want to let go of it. Our newly developed ergonomic steering wheel not only feels comfortable but also allows you to conveniently access and easily select the new assistance systems on the go.

### MAN Media Van

The new MAN Media Van comes with two display variants – 10.4" or 12.9" – and is packed with helpful features. The infotainment system offers a DAB and Bluetooth as standard. You can also opt for voice control, navigation, and web radio.

### MAN SmartLink

Enjoy seamless smartphone integration with Android Auto or Apple CarPlay, complete with wireless charging functionality. Selected apps are conveniently displayed on the screen and can be effortlessly operated using the controls of the MAN TGE.

### Digital driver's display

The new fully digital driver's display ensures that all important details are constantly visible and easily accessible.

### Electronic parking brake

The electronic parking brake is operable via a simple button in the cockpit. The additional "Auto Hold" offers additional relief, e.g. in stop-and-go traffic or on slopes.

### Keyless Go

Just leave the key in your pocket! Keyless Go makes the vehicle ready for operation via radio. An additional button in the cockpit is then used to start (and stop) the engine without a key.

### USB-C interface

Your smartphone charger is now always with you. Two USB-C ports in the dashboard make it easy to charge mobile devices quickly – as well as data transfer.

### Automatic gear lever

Make yourself comfortable. The automatic gear-shift lever improves driving performance and driving experience. It is quick and easy to operate, especially when things get complicated on the road.

# LIMITED. EDITION.

TGE Next Level Edition.

# THE TGE **NEXT LEVEL** EDITION.

With its premium exterior colour and attention-grabbing details, the **MAN TGE Next Level** takes style to a whole new level.

## Exterior highlights include:

- Pale Copper metallic paint
- Piano Black mirror caps
- Silver bumper boomerangs
- Exclusive 'Next' badge
- 17" silver or black<sup>1</sup> alloy wheels

<sup>1</sup> Available as an option

The new **MAN TGE Next Level** comes equipped with advanced assistance systems as standard, making daily life easier for you. Additionally, options are available to further enhance onboard equipment.

# NEXT LEVEL ASSISTANCE.

A MAN eTrophy van is shown driving on a city street at night. The van is light blue and has the MAN logo on the front. It is positioned in the center of the frame, moving towards the viewer. The street is illuminated by streetlights, and there are buildings and other vehicles in the background. The overall scene is a nighttime urban setting.

# A RANGE OF ADVANCED ASSISTANCE SYSTEMS **AS STANDARD.**

## **New Standard Assistance Systems**

### **(Highlights)**

- Fatigue Detection
- Traffic Sign Information
- Emergency Brake Assist
- Active Lane Guard System
- Tire Pressure Monitoring System
- Blind Spot Warning<sup>1</sup>
- Drive Off Warning<sup>1</sup>
- Parking Distance Control (front and rear)

## **New Optional Assistance Systems**

### **(Highlights)**

- Park Steering Assist
- Rear view camera
- Cruise Assist Plus<sup>2</sup>
- Emergency Assist<sup>3</sup>
- Blind Spot Warning<sup>4</sup>
- Drive Off Warning<sup>4</sup>
- Turning Assist
- Speed Limiter
- Cruise Control
- ACC Stop & Go
- Intelligent Speed Assist
- Lane Change Assist

#### **Emergency Brake Assist (Standard)**

The MAN TGE Next Level's Emergency Brake Assist is designed to prevent collisions with vehicles ahead. It assists the driver by issues visual and auditory warnings, and can even initiate braking when necessary. Integrated pedestrian and cyclist detection further enhances safety for all road users.

#### **Traffic Sign Information (Standard)**

Traffic Sign Information informs the driver about traffic signs detected by the cameras or determined from navigation and route data. It also warns when driving in the wrong direction and can provide visual and audible warnings if the speed limit is exceeded.

#### **Emergency Assist (Option)<sup>3</sup>**

Emergency Assist continuously monitors the driver's use of the accelerator, steering, and brakes. If a health issue or loss of driving capability occurs, rendering the driver unable to respond, Emergency Assist intervenes. It assumes control of the vehicle, safely bringing it to a stop and activating hazard warning lights along with other safety measures to secure the vehicle.

#### **Drive Off Warning (Option)<sup>1, 4</sup>**

The Drive Off Warning system utilises the multifunction camera and radar to monitor the area in front of the vehicle, greatly reducing the risk of collisions with pedestrians or cyclists during acceleration. Additionally, the collision warning's monitoring range can be extended with the Blind Spot Warning feature, covering the left, right, or both sides of the vehicle.

#### **Cruise Assist Plus (Option)<sup>2</sup>**

Cruise Assist Plus integrates the capabilities of ACC Stop & Go, Emergency Assist, Active Lane Guard System, and Traffic Jam Assist. This comprehensive system aids the driver in consistently managing distance, speed, and lane positioning. By proactively addressing potential hazards like lane departures, rear-end collisions, and risks to other road users (within system limits).

#### **Active Lane Guard System (Standard)**

Active Lane Guard System helps the driver to keep the vehicle in its lane. The course of the lane boundaries is recorded by a camera. If necessary, the system helps with steering interventions. In addition, the system warns by means of steering wheel vibration or an acoustic signal if a lane marking is crossed unintentionally.

#### **Blind Spot Warning (Option)<sup>1, 4</sup>**

Blind spots? Not any more. With Blind Spot Warning, the multifunction camera and radar monitors the blind spot area alongside the vehicle. This significantly reduces the risk of collision with cyclists, especially when turning.

<sup>1</sup> Standard for vehicles over 3.5 t, N2.

<sup>2</sup> Available for vehicles with automatic transmission only.

<sup>3</sup> Emergency Assist only available with ACC Stop & Go and with Cruise Assist Plus, therefore just for vehicles with automatic transmission.

<sup>4</sup> Optional for vehicles with 3.5 t, N1.
