Digital Extras Stay connected any time, anywhere

Digital Extras are a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Digital Extras let you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service - Digital Extras help to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so vou'll be ready for every journey.

Live Traffic Information, Parked Vehicle Locator and much more

Forgot where you've parked? Parked Vehicle Locator1 will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Mercedes-Benz Agent or visit the Mercedes-Benz store at shop.mercedes-benz.com/en-gb/connect

Comfort - connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

Specific services for all-electric vehicles from Mercedes-Benz

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The specific navigation services for all-electric vehicles from Mercedes-Benz consider electrical range, topography and charging stations.

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

'Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model ²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or gesture (where fitted) input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords "Hey Mercedes", the new intelligent voice control LINGUATRONIC1 lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents. and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say "I feel cold" and MBUX will adjust the temperature for you
- MBUX is able to understand which individual seat the request has come from, and will therefore only respond to their specific request (e.g. adjusting the temperature for just the front passenger)

Touch inputs

• Beside voice control you can operate MBUX via touchscreen, the touch controls on the centre console, as well as touch control buttons on the steering wheel

Personalisation

- Turn the EQE SUV into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

• Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX - it will tell you the answer

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

¹LINGUATRONIC off-board functions are currently only available for three years

EQE SUV

Vehement power immediately from standstill: An electric motor at the rear axle converts electrical into mechanical energy, and delivers impressive forward thrust. The intelligent operating strategy of the powertrain components supplies the power always wherever it is needed at the moment - efficiently and nearly silently.

Technical details

527-378 miles Electric range³ Charging time Public Rapid charger (170 kW DC) 10-80%4 31-32 mins Wallbox, Mode 3 (22 kW AC) 10-100%5 4 hrs 45 mins - 5 hrs 15 mins Home Wallbox (7.4kW AC) 10-100%5 14 hrs 15 mins - 15 hrs Electric energy consumption, combined3,6 185-252 Wh/km Battery type (usable) lithium-ion (91-96 kWh) Capacity on-board charger 22 kW AC; 170 kW DC

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control² when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

The recommended on-the-road price includes the Road Fund Licence applicable to the standard model clus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price 2The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network providers 3Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at http://www.mercedes-benz.co.uk/W/ITP current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase) refer to network infrastructure and can be limited by the vehicle

Technical data

$MB.CHARGE\ Public^1$ One registration, one contract, one billing

MB.CHARGE Public¹ provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

MB.CHARGE Public - Private customer

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes-Benz app
- · RFID card
- · Vehicle Head unit

Green charging

All charging using MB.CHARGE Public, will be retrospectively 'greened' by Mercedes-Benz.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes-Benz app and in MBUX multimedia system.

No fees

Enjoy free access to MB.CHARGE Public's convenient, reliable, and user-friendly charging network.

MB CHARGE Public - Business customer

Key features

- · All MB.CHARGE Public Private customer features2
- Charging fleet portal

- · Company payment and billing
- · Flexible prices per kWh

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers ²Excluding MB.CHARGE Public Private customer tariffs

Technical data

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the MB.CHARGE Public for private customers^{1,2} fixed-priced tariffs S, M and L.² Owners of a new Plug-in Hybrid model will be entitled to the MB.CHARGE Public¹ tariff M free of charge for the duration of 12 months.2*

Tariff I²

Recommended for 'frequent drivers'

Owners of a new all-electric model are entitled to the tariff L free of charge for 12 months, benefitting from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Fixed prices per kWh (AC: £0.45/kWh, after 300 mins +£0.06/min; DC: £0.62/kWh)3
- · IONITY rapid-charging stations discounted (£0.53/kWh)

Free of charge for the duration of 12 months.2* Thereafter: £10.90/month

Tariff M²

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Fixed prices per kWh (AC: £0.52/kWh, after 300 mins +£0.06/min; DC: £0.69/kWh)3
- · IONITY rapid-charging stations discounted (£0.60/kWh)

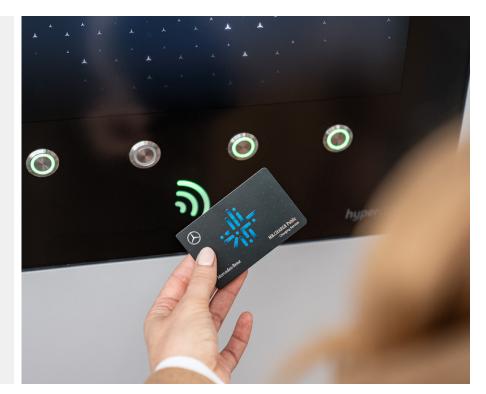

Tariff S²

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the MB.CHARGE Public¹ features based on flexible prices per kWh. This tariff is recommended for casual drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Flexible prices per kWh

£4.90/month

£0/month

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers This offer is exclusively for consumers. The distinction between consumer and business is determined by the type of vehicle linkage (private profile or company profile) the BP Pulse charging network Price information is not guaranteed and is subject to change. Please be aware that this tariff, your cancellation rights and current pricing can be found https://eu.charge.mercedes-benz.com/web/en/mb-gb/tariffs *The Tariff (L and M) and IONITY promotions for MB.CHARGE end on 30.11.2025. Customers must register by this date to qualify

Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

Home charging with Ohme: from £925* incl. VAT and standard installation

Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easyto-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime - the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service check Trustpilot for more information. A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

OZEV Grant:

You may be entitled to claim an OZEV grant towards the cost of your home charger. To check your eligibility, simply contact your local Mercedes-Benz Agent.

Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent - they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change ¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found here

Home charging with Pod Simple, convenient, fast charging

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

Home charging with Pod: from £925* incl. VAT and standard installation¹

Key benefits of Pod:

Pod is one of the leading provider of EV charging in the UK with over 250,000 home chargepoints installed.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Choice of tethered or untethered units; £925 for a 7kW universal, and £975 for 7kW tethered.

The Pod public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up 15 m of external cabling.

Utilise charge scheduling in conjunction with an off-peak EV tariff to reduce your charging costs by up to 70% compared with the current Energy Price Cap.2

OZEV Grant:

You may be entitled to claim an OZEV grant towards the cost of your home charger.3 To check your eligibility, simply contact your local Mercedes-Benz Agent.

Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent - they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

¹Full terms and conditions of home charging with Pod can be found here ²Based on an off-peak tariff *Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change of 8 p/kWh compared with the energy price cap until 31 March 2025 of 24.86 p/kWh 3The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found here

Driving Assistance package Plus Cares for what matters

The EQE SUV comes with standard ground-breaking innovations in safety, comfort and driving functions, to help you stay safe on the road.

Driving Assistance package Plus¹ (code P20) - designed and priced as a package Standard on all models except AMG Line Edition

Active Blind Spot Assist expanded with blind spot monitoring towards the front and side. Additional hazard indication of the blind spot warning system as well as exit warning function

Active Brake Assist with cross-traffic function with turning manoeuvre function (responding to (among other things) crossing pedestrians when making a turn). Operating range on urban routes expanded to 74 mph (previously 44 mph)

Active Distance Assist DISTRONIC responds to stationary road users to prevent collisions up to 80 mph (previously 37 mph)

Active Emergency Stop Assist: able to assist in manual mode (previously on in DISTRONIC mode). Optional lane change by one lane (at 49 mph where no obstacles detected)

Active Evasive Steering Assist: responds to cyclists and ends of tailbacks in addition to pedestrians. Operating range on urban routes expanded to 67 mph (previously 44 mph)

Active Lane Keeping Assist with enhanced comfort thanks to active steering intervention (instead of braking intervention) and additional hazard indication

Active Speed Limit Assist ensures detected speed limits are automatically adopted as the set speed for Active Distance Assist DISTRONIC

Active Traffic Sign Assist

Congestion emergency braking function

Emergency corridor function

Exit warning function when hand moves towards the door handles

Extended automatic restart on motorways

Hazard display via ambience lighting

Increased availability and cornering performance on carriageways with Active Steering Assist, more stern warnings to put hands on the steering wheel with new capacitive steering wheel

PRE-SAFE® PLUS and Impulse Side with body-raising function: when a rear-end collision threatens. PRE-SAFE® PLUS can initiate preventive measures, including warning following traffic and locking the brakes on standstill

Route-based speed adjustment with end of traffic jam function and Active Stop-and-Go Assist adaption of speed before curves, roundabouts and junctions with end of traffic jam function

Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein

The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged.

Figures shown are for comparability...

**Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged.

**Figures shown are for comparability...*

**Figures shown are figures shown are for comparability...*

**Figures shown are f purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factory including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at http://www.mercedes-benz.co.uk/WLTP 2A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to page 62 for the relevant rate for the second and subsequent years 1 The recommended on the road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£78.0.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

Become the AMG expert

Unleash a new level of performance.

Step into the world of performance and experience the AMG brand at Mercedes-Benz World - from the powerful sound of the engines to the smell of the leather to the unmistakable design of our vehicles.

Mercedes-Benz World invites all Mercedes-AMG customers to a complimentary adrenaline-packed driving experience. Feel the sensational AMG driving performance, develop your driving skills and even try your hand at powersliding on the Wet Skid Circle. With expert one-to-one guidance from a Driving Specialist in the passenger seat, experience every inch of our Handling Circuits, Dynamic Straight and low friction surfaces.

> Click here for more information

The following customers only are eligible: The first purchaser/registered keeper of a newly registered Mercedes-AMG. The complimentary training must be booked and taken within 12 months of email receipt. The training is available Monday - Friday only (excluding bank holidays) and subject to availability. Upgrades are available for an additional cost, details upon request. Transferable to individuals who reside at the same postal address only. Mercedes-Benz UK Limited reserves the right to amend or withdraw this training experience. Attendees must hold a full UK driving licence. Attendees will be required to sign the Mercedes-Benz World Driving Risk Acknowledgement prior to undertaking

The training experience is also subject to the Mercedes-Benz World Terms and Conditions, as applicable. Retailer demonstrator

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate for each taxation band will apply. The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions and the relevant Excise Duty are shown on the model pricing pages.

Road fund licence rates for tax year 2025/26, effective from 1 April 2025

Band	CO ₂ emissions (g/km)	First year rate (£)	Standard rate (£)	Premium rate (£)¹
Α	0	10.00	195.00	620.00
В	1 to 50	110.00	195.00	620.00
С	51 to 75	130.00	195.00	620.00
D	76 to 90	270.00	195.00	620.00
E	91 to 100	350.00	195.00	620.00
F	101 to 110	390.00	195.00	620.00

Services and insurance

Mercedes-Benz Service Plans

We believe that servicing and repair costs should be as flexible and affordable as possible for your EQE, which is why we offer a choice of Service Plans to make it easy to budget for all your servicing, MOT and repair costs. It spreads your bills into manageable monthly payments based on whether you have a new or used Mercedes-Benz.

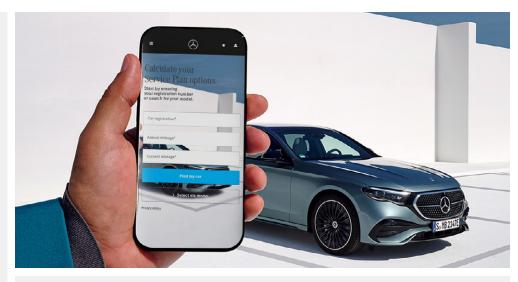

- ServiceCare guarantees the price of parts and labour for up to four services and safeguards against any inflationary influences. It also covers your annual MOT fees depending on the age of your vehicle when you take your plan out.
- CompleteCare our most comprehensive plan covering all your servicing, MOT, wear & tear needs as well as Extended Warranty once your vehicle turns four years old.
- Extended Warranty protect yourself against sudden or unexpected repair costs after your initial warranty period has ended after three years. There are three policy options to choose from: 12-month, 24-month or a monthly pay-as-you-go option.

Click here for more information

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it - that's why we created First Cover. It gives you 5 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

Apply for First Cover

Battery Warranty

The battery is under warranty for either a maximum distance of 155,000 miles or up to ten years from the date of first registration, whichever comes first.²

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects³ and up to 30 years warranty against perforation due to corrosion from the inside out.4 What's more, it's also covered by Mercedes-Benz Roadside Assistance - a unique package comprising up to 30 years pan-European breakdown assistance.4

Standard

equipment

Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance 4Subject to full Terms and Conditions, dependent on date of registration, available upon request

²Cars that hold a Hackney carriage vehicle licence (Taxicab) and/or Taxi Operator licence issued by a local authority, come with a 3-year 155,000-mile battery warranty

3Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz
