FURTHER INFORMATION

On The Road charges (OTR) include:

- 12 Months Government Vehicle Excise duty depending on CO2 emissions, vehicle first registration fee (£55), number plate (£26) and delivery costs (£750).

The Government have made the following changes to VED:

- Cars registered on or after April 1st 2017 will pay a one-off tax charge for the first year (included in OTR price), with rates decided by the CO2 emissions of the vehicle.
- From the second year onwards, the CO2 scale becomes irrelevant, as two flat rates will then be applied – a £0 (zero) VED rate for electric zero-emissions vehicles only, and a flat annual rate of £190 for petrol and diesel cars and £180 for alternative fuel cars.
- While cars costing over £40,000 will also be liable for the £190 VED rate from year two, they also pay an additional annual 'supplement' of £410 for the first five years.

CO2 Emissions Figure (g/km)	0	1-50	51-75	76-90	91-100	101-110	111-130	131-150	151-170	171-190	191-225	226-255	Over 255

FUEL CONSUMPTION

Fuel consumption and CO2 figures are determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. Figures shown are for comparability purposes; only compare fuel consumption and CO2 figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
