All-New Electric

e:NY1

Introducing the Honda e:Ny1

The all-new, all-electric e:Ny1: a smart, agile and exciting SUV designed for the way you live your life. Quiet, smooth and engaging to drive, it delivers **performance, comfort and usability** – with zero emissions.

For more information on which grades this and other features are available on, please refer to the specification pages 52-55.

A woman with curly hair, wearing a red sweater and light-colored pants, stands in a garden-like setting with green bushes and trees. She is holding a smartphone and taking a photo of a modern, white electric vehicle charging station. The station is mounted on a dark post and has a charging cable plugged into it. In the background, there is a building with a light-colored stone or concrete facade. The scene is brightly lit, suggesting a sunny day.

Electric

Model shown is the Honda e:Ny1 Full Electric Advance in Aqua Topaz Metallic.
For more information on which grades this and other features are available on, please refer to the specification pages 52-55.

Pure electric, pure enjoyment

The e:Ny1's powerful yet compact 68.8kWh battery provides a range of up to 412km on a single charge.

Recharging is quick, simple and flexible, with a 100km charge achieved in approximately 11 minutes*, and fast charging in approximately 45 minutes (10-80%)*.

The innovative charging inlet is easily located behind a retracting panel at the front of the car, whilst an intelligent charge indicator, integrated under the bonnet line, communicates the charging status.

01

**412KM ZERO
EMISSIONS RANGE****

02

**60 MILES CHARGE IN
11 MINUTES***

*Indicative charge times shown, for comparison purposes. e:Ny1 AC on-board charger is three phase and has a max charging capacity of 11kW. A charge from 10 - 100% can be achieved in approximately 6.3 hours with 22kW AC charger and 1.7 hours using a 50kW DC charger, in optimal conditions such as a temperature around 25°C. 11kW / 22kW are both 3 phase, however e:Ny1 has only 11 kW onboard charger capacity, so charging time shown are same. Actual charging times may vary depending on various factors: including the age, type, charging capacity, condition and temperature of the charging unit and the battery, max charging rate of the vehicle and the charge point, the starting charge and environmental conditions such as the outdoor temperature at the point of use and the current and voltage available at the charging point. Charge times may be longer in colder weather and if battery temperature activates safeguarding technology. You can only charge a vehicle's battery at the maximum charge rate the vehicle can accept.

**Economy & Emissions figures (WLTP) Range: Power consumption in kWh/100km: 18.2; CO2-emission combined (g/km): 0. Electric range combined: 412km. The Honda e:Ny1 is a battery electric vehicle requiring mains electricity for charging. Zero emissions while driving. Electric range figures may not reflect real-life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Model shown is the Honda e:Ny1 Full Electric Advance in Aqua Topaz Metallic. For more information on which grades this and other features are available on, please refer to the specification pages 52-55.

Everyday electric

High tech doesn't have to mean highly complicated, which is why we've designed the new e:Ny1 to be **an everyday car and a joy to drive**. Ready and charged on your driveway every morning, it's the perfect car for the city, especially now that so many urban areas have designated ultra low emission zones.

Remote connectivity through the My Honda+ App makes life even easier. It allows you to check the battery range before you set off, schedule and monitor charging, or even pre-set the temperature of your car before you get in, ensuring you feel comfortable from the very start of every journey.

01

**EASY TO DRIVE WITH
INTUITIVE CONTROLS**

02

**ZERO EMISSIONS,
PERFECT FOR THE CITY***

*Economy & Emissions figures (WLTP) Range: Power consumption in kWh/100km: 18.2; CO2-emission combined (g/km): 0. Electric range combined: 412km. The Honda e:Ny1 is a battery electric vehicle requiring mains electricity for charging. Zero emissions while driving. Electric range figures may not reflect real-life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

Power and performance

The e:Ny1 incorporates Honda's latest electric powertrain, delivering exceptional drivability and provides around 204PS of output with 310Nm of torque, meaning you don't just maximise the instant acceleration but optimise your range too. A clever regenerative braking system also helps recharge the battery and extend its electric range.

Three distinct driving modes – Econ, Normal and Sport – allow you to select the right balance of power, efficiency and handling you require. From sweeping country roads, to long motorway stretches and tight city centres, the e:Ny1 has the agility and performance to tackle them all.

SPORT DRIVING MODES

Smooth driving experience

With performance engineered to be enjoyed by the driver and passengers alike, the e:Ny1 has advanced stability and handling, and delivers a **smooth, quiet and agile driving experience.**

Our human-centric design philosophy can be seen in the thoughtful details such as an 8-way power-adjustable driver's seat and our interior Air Diffusion System for the enhanced comfort of everyone.

Technolog

Life is better connected

Designed to fit seamlessly into your life, the e:Ny1 features a 15.1" Honda CONNECT infotainment system. This intuitive display gives you full control of your infotainment and driving functions, including navigation, power flow meter and reversing camera. Apple CarPlay® and Android Auto™ come as standard to connect your devices. Driving information is delivered through the digital 10.2" driver display, which is fully customisable to suit your driving preferences. Vehicle status, safety information and charge data are all there for you, at a glance.

And with the Handsfree Power Tailgate*, you can open the boot remotely with the key fob, then once you've finished loading, just tap the 'Walk Away Close' button, and watch as it automatically closes the tailgate and locks the car as you walk away.

Smart and sophisticated

The e:Ny1's smooth and flowing styling combines dynamics with functionality. Its simple grille-less design, sleek headlights, full-width LED tail lights and sequential indicators give the new e:Ny1 **a streamlined, sophisticated character.**

The unique and stylish 18" alloys and a white Honda H badge are the finishing touches that really set the e:Ny1 apart.

Feel good inside

Spacious and uncluttered, the interior has been created to achieve **a comfortable and welcoming space**, with thoughtful design details and the use of premium materials throughout. Enjoy seamless audio integration via our six-speaker sound system, for crystal-clear sound on the go.

Your comfort is our priority, so the ergonomically designed front seats are heated, as is the steering wheel*, whilst our Air Diffusion System ensures an enjoyable experience all year round. The feeling of space is accentuated by a large panoramic glass roof* and a simple, visor-less, full-width dashboard.

A space to enjoy

We have created a flexible and practical space that fits with your life. The e:Ny1's spacious 361 litre cargo area can expand to 1,176 litres with the seats down and, to increase storage capacity further, it also has a two-stage boot floor. There's even a dedicated space for the charging cables, tucked away underneath the boot floor, whilst its wide tailgate aperture and low, flat cargo floor provide easy access for loading heavy items.

Honda safety

We are committed to keeping you, your passengers and pedestrians safe, which is why we've packed a great deal of active and passive safety technology into the e:Ny1.

This includes Honda SENSING: our intelligent suite of advanced safety features that will assist you as you drive.

Safety features include:

Collision Mitigation Braking System

If there is the possibility of a collision with a vehicle or a pedestrian, this feature will alert you to the danger as well as reducing your speed to help minimise the severity of any impact.

Lane Departure Warning

If the car moves out of its lane without you activating the indicator, then alerts will flash and sound to help bring your attention to correcting the lane drift.

Road Departure Mitigation

A windscreen-mounted camera detects whether the car is veering off the road and applies subtle steering corrections to keep your vehicle in its lane. In certain conditions, it can also apply braking force.

Lane Keeping Assist System

Helps keep you in the middle of your lane, providing a less stressful driving experience by reducing the need for steering correction movements and driving effort on the motorway.

Adaptive Cruise Control with Low-Speed Following

This function maintains a set cruising speed and following distance relative to the vehicle in front of you. If the detected vehicle comes to a stop, the function will decelerate and stop your vehicle without you having to keep your foot on the brake. Once the car in front starts moving again, simply tap the accelerator to resume the operation.

Multi-View Camera System*

Helps expand the driver's awareness of what's in front, alongside or behind the car and reduce blind spots, with images displayed on the central touchscreen*.

Honda Parking Pilot*

An automatic, hands-free, one-touch parking aid to help you safely fit into the tightest spaces. A combination of sonar radar and multi-view cameras also enables the e:Ny1 to detect parking spaces even when they are not defined by bay lines.

*Select grades only.

Elegance

The **Elegance** comes fully equipped with a range of advanced features to enhance your driving experience:

- Honda SENSING Safety Features
- Honda CONNECT with Navigation (15.1" Touchscreen, AM/FM/DAB Digital Radio, Apple CarPlay® and Android Auto™, Live Traffic Info)
- x6 Speakers
- x2 Front and x2 Rear USB Ports
- Wireless Charging
- 18" Black Cut Alloys
- Heated Front Seats
- Leather Steering Wheel
- Synthetic Leather Upholstery
- Dual-zone Automatic Climate Control
- Rear-view Camera
- Parking Sensors (x4 Front and x4 Rear)
- Under-boot Charging Cable Storage
- Privacy Glass

Advance

As well as many of the features available on the Elegance grade, the **Advance** grade includes:

- Heated Steering Wheel
- Multi-View Camera System
- x4 Additional Parking Sensors
- Honda Parking Pilot
- Handsfree Power Tailgate
- Premium Audio
- Panoramic Glass Roof

Charging accessories

1. Honda Power Charger

The Honda Power Charger offers a charging capacity of up to 22kW three phase and 7.4kW single phase for faster home charging. There are three variants available: the Honda Power Charger, S and S+, with and without shutter (depending on country legislation).

Also available: MID and M&E compliant variants for billing purposes.

2. Mode 2 Charging Cable

Portable Electric Vehicle Supply Equipment (P-EVSE) for grid-to-vehicle charging. A protective storage bag is included.

3. Mode 3 Charging Cable

Charging cable to connect your vehicle to a Honda Power Charger or public charger (single-phase and three-phase variants are available). A protective storage bag is included.

Key features

Whether used at home or in business, Honda Power Chargers deliver unrivalled safety, efficiency and ease of use.

Obscura Black Pack

The Obscura Black Pack gives the car a sporty and expressive character by adding black-coloured accessories. **This pack includes** a front grille with parking sensors and a tailgate spoiler extension.

FRONT GRILLE

Distinguish the complete front look of your e:Ny1 by replacing the body-coloured charging lid and garnish with a painted shiny black front grille to give your car a more sporty and stylish character.

Items in the pack are also available separately.
Alloys shown are the HR1811 alloy wheels, these are optional and sold separately.
Model shown is the Honda e:Ny1 Full Electric Advance in Aqua Topaz Metallic.

TAILGATE SPOILER EXTENSION

If a distinguished sporty look is what you want, this shiny black spoiler extension is exactly what you need. The spoiler extension is specifically developed to complement the standard tailgate spoiler.

Alloys

O2

ALLOY WHEEL 18" HR1812

The HR1812 alloy wheel features a diamond-cut A-surface with a shiny clear coat and Gunpowder Black windows.

O1
