

# PEUGEOT **EXPERT**

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 1st October 2024  
2025A (K0) Model Year

## PEUGEOT EXPERT

**New PEUGEOT EXPERT features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids. It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals.**

Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10-inch touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

# PEUGEOT EXPERT **PANEL VAN**

New PEUGEOT EXPERT Panel Van is available in a number of versions: Standard (4.98m) or Long (5.33m), and two trim levels: Professional and Asphalt.

# PEUGEOT EXPERT | STANDARD EQUIPMENT BY EDITION

## PANEL VAN PROFESSIONAL

### COMFORT AND CONVENIENCE

- Electrically operated front windows with one-touch facility
- Manual parking brake (ICE Only)
- Electric parking brake (EV Only)

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Retailership for the most up-to-date prices and specification details for all models. CO₂ figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO₂ emission output. \*Driver Edition versions

benefit from the EXTENSO® seat which provides an additional load length of 1162mm and increases the load volume by 0.5m³. \*\*WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other vans tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is

used to measure fuel consumption and CO₂ figures. †All Manufacturer’s Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty. ^The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £5,000. On-the-road pricing includes number plates and delivery to Retailer of £1,125.00 exc. VAT (£1,339.00 inc. VAT) and new vehicle first registration fee of £55.00 (correct at time of publication). Excludes fuel and insurance.

PEUGEOT EXPERT | ALSO INCLUDES A FLEET MANAGEMENT SERVICE OFFER....

**PREVENTATIVE  
MAINTENANCE**  
FOR 4 YEARS FOR  
CUSTOMERS MANAGED  
BY DEALERS

---

(B2C & SME)

The Preventative Maintenance Service via Free2Move is designed to help monitor and optimise the health of commercial vehicle fleets, offering support through live alerts and upcoming maintenance reports. This makes it easier for fleet managers to keep their vehicles in good working condition, saving time and money.

- Fleet Dashboard View
- Maintenance Tracking
- Report via Email
- Vehicle Health Alerts
- Van Maintenance Appointment

Customers can upgrade (via subscription) to Connect Fleet. This management platform is a full version opening up a broader spectrum of possibilities. With Connect Fleet customers can optimise the use of their vehicles by gaining access to consumption reports, mechanical alerts, eco driving and driving behaviour reports and vehicle geolocation in the event of theft in real time.

**For more details** [click here](#)

**For contact** [click here](#)

4 YEARS TRANSFERABLE

**FLEET MANAGEMENT  
DATA PACK**  
FOR 4 YEARS FOR  
CUSTOMERS MANAGED  
BY NSC KAMS

---

(MAJOR FLEETS, RAC & LEASING)

Natively embedded telematics data via MyPeugeot is already included in vehicle purchase for eligible vehicles. This enables a multitude of fleet management use cases to boost fleet efficiency, safety and sustainability, including:

- Fuel Management
- Vehicle Health Monitoring & Maintenance Management
- Route Optimisation
- Driver Monitoring
- EV Charging Management

**Benefits for Fleet Customers**

- Compatible with any Fleet Management Service Provider
- No expenses for aftermarket device, no additional data costs for customer
- No downtime for installation
- Seamless, immediate and zero-touch activation, rapid deployment at scale
- As telematics system is fully integrated in vehicle, data source is primary and will not be a third party approximation.

**For more details** [click here](#)

**For contact** [click here](#)

The fuel consumption or electric range achieved, and CO<sub>2</sub> produced (where applicable), in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); the starting charge of the battery; variations in weather; driving styles and vehicle load.

The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption, electric range and CO<sub>2</sub> figures.

Figures shown are for comparison purposes and should only be compared to the fuel consumption, electric range and CO<sub>2</sub> values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph. ^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph. ^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph. ^\* 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph. ^\*\* 'COMBINED': A mixed journey average of all elements.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

\*Please note: The EAER, Equivalent All Electric Range, is for business tax calculations only and does not represent the actual range attainable by the vehicle.

DESCRIPTION	BATTERY ELECTRIC VEHICLE 75 KWH
<b>ELECTRIC MOTOR</b>	
Torque Nm	270 / 3674
Max power CEE (kW (PS)/rpm)	100 (136) / 5500
<b>CHARGING TIMES</b>	
Domestic electrical plug – Type 2 Socket	36h 45m (100%)
Single Phase Wallbox (7.4kW) – Type 2 Socket	11h 20m (100%)
Three Phase Wallbox (11kW) – Type 2 Socket*	7h 30m (100%)
Rapid (DC) Charging (100 kW) – CCS Socket	45m (5 to 80%)
<b>TRANSMISSION</b>	
Gearbox	Automatic electric drive with fixed gear ratio
<b>PERFORMANCE</b>	
Max speed (mph)	81
Acceleration (0-62 mph)	14.3sec
Service	Every 25,000 miles or 2 years (whichever comes sooner).
Battery Warranty	8 years/100,000 miles/70% capacity

Peugeot have partnered with Octopus Energy to provide everything you need for your new Peugeot e-Expert, including a tariff, charger and a solution for charging on the go making owning an electric vehicle easier and hassle-free.

Click [here](#) for more information.

The e-Expert is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard.

The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Peugeot Retailer.

\*Requires optional 11kW on board charger.

SUSPENSION	Front: Independent. Reinforced Pseudo MacPherson front axle with Anti-roll bar / Rear: Oblique wishbone trailing arms rear axle		
BRAKES FRONT/ REAR	304mm x 28mm Ventilated front discs / 290mm x 12mm Solid rear discs		
FUEL TANK CAPACITY LITRES (gallons)	70 (15.4)		
ADBLUE TANK CAPACITY LITRES (gallons)	22.5 (4.95)		

By simply twisting the dial, the following modes can be selected:

- Park, for when the vehicle is stationary and the wheels are locked
- Drive, for automatic forward motion
- Neutral, for when the vehicle is stationary,wheels are free
- Reverse, for automatic backward motion

For an extra experience of dynamism, the shift paddles for automatic transmissions are located behind the steering wheel, offering drivers an extra level of control that is highly ergonomic and intuitive. The shift paddles function in the following way:

- To go up a gear, the driver must pull the right lever towards themselves
- To go down a gear, the driver must pull the left lever towards themselves – Please note: only consecutive gear changes are possible

Vehicles with BlueInjection technology will need regular AdBlue® top-ups between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. For more information please contact your local Peugeot Dealer. In accordance with regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).
