

# NEW PEUGEOT **BOXER**

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 1st October 2024  
2024A Model Year

# MEET THE RANGE

## PEUGEOT BOXER

**New PEUGEOT BOXER is the largest model in PEUGEOT's van line-up. Alongside an upgraded exterior and interior design, it features a new electric powertrain providing impressive enhancements to the range, latest-generation connectivity and more sophisticated driving aids.**

The new BOXER's updated exterior styling reinforces its robust and attractive design while optimising its aerodynamic efficiency. The interior of the BOXER has also been extensively overhauled with a new steering wheel design, instrument cluster, dashboard, seat fabrics, and door panels.

# PEUGEOT BOXER **PANEL VAN**

The new PEUGEOT BOXER is available in several versions, providing versatility for all business requirements.

# PEUGEOT BOXER | STANDARD EQUIPMENT

## PANEL VAN PROFESSIONAL

### COMFORT AND CONVENIENCE

Category N2: Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 3.5 tonnes but not exceeding 12 tonnes. N2 vehicles are legally required to be speed limited at 56mph, and have a tachograp

**IMPORTANT NOTE RE: CONVERSIONS**  
Any vehicle ordered (including panel vans) for a conversion that changes the base vehicle type approval must be aligned to a Stellantis Certified Convertor within Converttool by entering the associated vehicle order number. Please note that if the vehicle order number is not inputted into Converttool then the order/s will be cancelled. It is also important that you discuss your conversion project with the converter before ordering the base vehicle.  
<https://converttool.stellantis.com/>

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Retailership for the most up-to-date prices and specification details for all models. CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO2 emission output. WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard.

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. † All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty. ^ The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £5,000.

Any vehicle ordered (including panel vans) for a conversion that changes the base vehicle type approval must be aligned to a Stellantis Certified Convertor within Converttool by entering the associated vehicle order number. # Boxer also includes a fleet management service offer....

**Preventative Maintenance**  
For 4 Years for Customers  
managed by DEALERS  
(B2C & SME)

OR

**Fleet Management Data Pack**  
For 4 Years for customers  
managed by NSC KMAs  
(Major Fleets, RAC & Leasing)

The Preventative Maintenance Service via Free2Move is designed to help monitor and optimize the health of commercial vehicle fleets, offering support through live alerts and upcoming maintenance reports. This makes it easier for fleet managers to keep their vehicles in good working condition, saving time and money.

- Fleet Dashboard View
- Maintenance Tracking
- Report via Email
- Vehicle Health Alerts
- Van Maintenance Appointment

Customers can upgrade (via subscription) to Connect Fleet. This management platform is a full version opening up a broader spectrum of possibilities. With Connect Fleet customers can optimise the use of their vehicles by gaining access to consumption reports, mechanical alerts, eco driving and driving behaviour reports and vehicle geolocation in the event of theft in real time.

For more details [click here](#)  
For contact [click here](#)

4 YEARS TRANSFERABLE

Natively embedded telematics data via MyPeugeot is already included in vehicle purchase for eligible vehicles. This enables a multitude of fleet management use cases to boost fleet efficiency, safety and sustainability, including:

- Fuel Management,
- Vehicle Health Monitoring & Maintenance Management,
- Route Optimization,
- Driver Monitoring,
- EV Charging Management

**Benefits for Fleet Customers**

- Compatible with any Fleet Management Service Provider
- No expenses for aftermarket device, no additional data costs for customer
- No downtime for installation
- Seamless, immediate and zero-touch activation, rapid deployment at scale
- As telematics system is fully integrated in vehicle, data source is primary and will not be a third party approximation.

Acceleration (0-62 mph)	10 seconds			N/A		
CHARGING TIMES						
8A Domestic electrical plug (1.8kW) - Type 2 Socket			N/A			
Single Phase Wallbox (7.4kW) - Type 2 Socket			16h 40min			
Three Phase Wallbox (11kW) - Type 2 Socket			11h 45min			
Rapid (DC) Charging (150 kW) - CCS Socket			55min			

\*All N2 vehicles are legally required to be speed limited to 56mph

As all e-Boxer are homologated as Heavy and are not subject to WLTP testing, the range and electric consumption figures mentioned are calculated using WLTP Test Procedure methodology, on which the basis of all new Light Commercial or Passenger vehicles up to a GVW of 3500kgs are type approved, from 1 September 2018. The figures may vary depending on actual conditions of use and on differing factors such as: speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular; on the power of the charger on board the vehicle, the charging cable and the type of cable used. Please contact your dealer or refer to [www.peugeot.co.uk](http://www.peugeot.co.uk) for further information.

Peugeot have partnered with Octopus Energy to provide everything you need for your new Peugeot Boxer, including a tariff, charger and a solution for charging on the go making owning an electric vehicle easier and hassle-free.

Click [here](#) for more information.

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the driver selects from the facia-mounted buttons the following:

- **P:** Parking
- **R:** Reverse
- **N:** Neutral
- **D:** Drive

Driving modes enable the driver to optimise the range in real conditions. Three drive modes are available:

**Eco:** for a smooth and economical drive

**Normal:** for a comfortable and balanced drive

**Power:** for a powerful and responsive drive

There are four E-Coasting modes for regenerative braking enabled by the paddles on the steering wheel:

**E-Coasting 1:** Free wheeling

**E-Coasting 2:** Low deceleration

**E-Coasting 3:** Medium deceleration

**E-Coasting 4:** High deceleration
