*Range figures are determined according to the standardised EU measurement procedure (WLTP). Individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices/units, have an influence on the real life range and can possibly reduce it.

**In order to achieve the maximum charging speed, an electric vehicle charger that delivers at least 3.3 kW of electricity must be used. Actual charging speed and charging time may be influenced by the battery temperature and weather conditions.

Discover EV with Kia

Questions about switching to electric?

If you're thinking of switching to an electric car, but want to know more, then it's time to Discover EV with Kia. You can get expert advice about living with an electric car at your local dealership.

Living with an EV

Charging & Range

Technology

You'll also be able to explore our award-winning electric range, including the Kia EV6, the Kia Niro EV, and UK Car of the Year - the Kia EV9.
