WINTER 2014 / 2015

Fly from Dublin, Cork & Belfast

Thank you for taking the time to read our new look Topflight ski brochure. We're really looking forward to a great season and would love to take care of your travel arrangements this winter. At Topflight, we understand ski holidays, particularly from an Irish point of view.

We pride ourselves on offering the best value to our customers. We do this by negotiating hard with our partners to ensure we've got the best rooms in the best hotels at the very best rates. Over the past 12 months, 98% of people who travelled with Topflight, said they would travel with us again. And while we're proud of this number, we are working hard on getting that to 100% and won't stop until we get there.

This year we bring you a wide selection of resorts in Europe, USA and Canada. New for this season, we're delighted to announce further expansion of our French ski program with the inclusion of Val d'Isère. On the back of the success of the Chalet Holidays in La Plagne last season, we now bring you 50 great chalets across 6 top ski destinations in France. We include 9 of these within this brochure. You'll find the other 41 on our website.

Our tailor-made team are ready to create holiday packages in resorts such as Chamonix in France, Vail and Aspen in the USA and Banff & Whistler in Canada. We can work specifically to your requirements. So whether you'd like a weekend in Norway or a longer break in the USA with a city stopover along the way, we've got you covered.

You'll find a great selection of our product within these pages and we've got even a wider selection available online which can be booked directly with our experienced sales team or through your local travel agent.

We launched the all new Topflight.ie website 12 months ago and we've worked tirelessly since then to improve the photography and descriptions of our hotels so you can make a more informed choice like never before. You'll also find 360 virtual tours of all our chalets. Ireland's top ski journalist, Catherine Murphy has come on board to help us accurately depict each ski destination while keeping the Irish skier in mind. We hope you enjoy reading!

I look forward to seeing you on the slopes soon!

Tony Collins

# Topflight Chalet Collection

This ski season, we are delighted to bring you 50 superb chalets, never available before to the Irish market. This is a completely unique experience that we're sure our Topflight clients are really going to love. We do!

## The Chalet Experience

We like to think of the chalet experience as a real home from home. When you arrive at your chosen chalet, you'll be welcomed by your chalet host who will take great care of you to ensure you have the holiday of a lifetime. Our hosts will keep the whole chalet spotlessly clean during your stay and also prepare delicious meals six days a week from locally sourced produce. Most of our chalet hosts are avid skiers and will be able to share great insider knowledge about the resort.

Chalets are perfect whether you're travelling alone, with your family or as part of a larger group. If you have 6 people or more in your group, you may be able to book a whole chalet privately for your party. For smaller groups or families, you'll share your home for the week with other like-minded skiers and enjoy great meals together where you'll have time to share your experiences of the day over some great French wine. If travelling with children, it may be worth talking to a member of our sales team as we can often recommend a chalet where other families with children of a similar age as your own have booked.

## Our Staff

In each of the 6 resorts, you'll find a team of highly skilled individuals who will take care of every aspect of your ski holiday. Every member of staff will have been through our extensive training program before the season starts and only the very best make it through to work for us in the mountains. Our chalet hosts are selected for their out-going friendly personalities, dedication to providing excellent customer service and also for their cooking. You'll also be in contact with our resort managers who ensure the smooth running of operations.

## Childcare

Our childcare, crèche and nanny services are available for children staying in three of our ski resorts - La Plagne, Les Arcs and La Rosière (see [www.topflight.ie](http://www.topflight.ie)). Our childcare service enables parents and young children alike to enjoy their family skiing holiday to the full. We employ qualified nannies to look after your children, leaving you free to ski safe in the knowledge that they are being cared for in the best possible way. We have low nanny to child ratios to ensure that each child has all the attention he or she needs and deserves.

## OUR CHALETS

Each chalet is finished to the very highest standards and are in locations which are hard to beat, generally no more than a couple of minutes from the nearest ski lift, ensuring you have as much time on the mountain as possible. You'll find our chalets in 6 of the best snow-sure French ski resorts, each very unique in their own way. Whether you're looking for a perfect family friendly resort like La Rosière, or want to explore the vast ski areas of the Espace Killy or Trois Vallées, we've got you covered. And don't forget, we've over 40 more chalets on offer through our new website [www.topflight.ie](http://www.topflight.ie)

# First Time Skiers

## What To Expect

On a ski holiday, you can be guaranteed a lot of fun. Anyone you know who's been away skiing can confirm this but let's talk about the more practical side of things on this page.

Ski holidays from Ireland generally depart at the weekend and return home the following weekend. If travelling within Europe, a uniformed member of the Topflight team will meet you at your arrival airport. From there you'll be transferred to your chosen destination. Generally you'll arrive in resort in the afternoon or evening. Once checked into your accommodation and settled in, you may have the opportunity to organise your ski equipment hire that evening but if not, this can happen on the following morning.

Don't fall into the trap of hitting the Après Ski before you actually ski! Getting yourself organised and into ski school on the first morning should be your priority. This will make for a stress free start for what should be an amazing week.

## TOP TIPS FOR BOOKING YOUR FIRST SKI HOLIDAY

### When to Travel

The ski season runs from December through to April. Hotel prices will vary depending on demand at that time. If you're looking for a great deal, January or March can be the best time to travel. The prices are lower and the pistes are quieter. As a general rule of thumb, try to avoid school holidays if at all possible.

### Destination

Choose the destination that suits your ability and pocket the best. You may have heard that Val d'Isère is great but it might not necessarily be right for you. Talk to our experienced team to help you find the resort that's perfect for you.

### Board Basis

Self-catering may seem like the most affordable option for you. However, if it's your first ski trip and you're travelling with children, it may make for an easier experience if you don't need to cook for the whole family after a day on the slopes.

### Take Lessons

To really get the most of your week on the snow we recommend booking some lessons. We work with the best ski schools all with English speaking instructors. This is a great way to meet new friends, accelerate your learning and stay safe on the slopes.

### Borrow Ski Gear

If you're new to skiing, try to borrow some clothing from a friend who's been before. This is a great way to keep the price of that first trip to a minimum. Alternatively, you'll find that some outdoor/adventure shops will hire ski suits for a week at a fraction of the cost of purchasing it.

### Do Some Exercise

You don't need to be a fitness fanatic to enjoy a winter sports holiday but it will really stand to you if you do some basic training first. This could be as little as some squats or some cycling at home in the weeks before you travel. Anything really to get those legs moving!

### Pack Smart

It's going to be cold in the ski resort. That's a good thing! It's best to pack and wear thin layers, which you can easily remove or add depending on the weather. We recommend wearing your ski jacket at night time. Good quality sunglasses are a must. You may need ski goggles but only if it's actually snowing. So wait till you get to resort and only buy goggles if you need them.

### Get Insured

Travel insurance with sufficient medical and winter sports cover is an absolute must on a ski holiday. If you're travelling with friends, please ensure they also have a good insurance policy.

# Ski School

If you are new to the slopes or simply want to improve your skiing skills, our ski schools are a great choice for all levels of skiers. By joining a group lesson or taking private lessons you will pick up all the basics of skiing or boarding in a safe and enjoyable learning environment. Learning to ski can be tricky at first but it is remarkable how quickly you build up your confidence and will be able to tackle some of the easier slopes. Topflight work in partnership with the best ski schools throughout all our chosen ski resorts so you can be confident that you will be looked after.

If you have skied before you can join other skiers of similar ability as you develop your skiing skills together in an intermediate or advanced class. The ski school will grade everyone on the first morning and ensure that you are with people of similar ability.

Ski school offers a fun atmosphere for learning and you will benefit from professional tuition allowing you to pick up the basics and gain confidence on the snow. Private lessons are also an ideal way to perfect technique on a one to one basis or indeed a small group.

## Dedicated Children's Ski Schools

Not forgetting the little ones, our ski schools will give them a warm and friendly welcome to the ski slopes. With excellent tuition guaranteed, your children can make new friends, enjoy lots of exercise and learn to ski in a fun environment. Our children's schools are expertly run to ensure your child is comfortable and happy while learning to ski. Once the children are happy, you can relax and enjoy your time on the slopes.

## Ski School Times

As Topflight work with the best ski schools in each resort, ski school timings are chosen with you in mind. Times vary in each country but in general operate as follows:

- Austria** – 4 hours per day (split between morning & afternoon)
- Andorra** – 3 hours per day (morning or afternoon timings can be chosen)
- France** – 3 hours per day
- Italy** – 2/3 hours per day

## First Timer's Packs

For complete beginners who have never put on a pair of skis before, these are the packs specially designed with you in mind. They offer an all inclusive price on all the components you need to get you started as they include tuition, lift pass and equipment hire for the duration of your holiday. These packs must be pre-booked. See individual resort introduction pages for further details on resorts offering first timer's packs for skiers or boarders.

## Our Reps Are On Hand!

As an added benefit of travelling with Topflight, you can travel in the confidence that whilst in resort if you have any questions relating to ski school simply ask them, they will be delighted to help you as they have all the local knowledge.

# Family Ski Holidays

A family ski holiday is like no other. It truly is a unique experience where the whole family can learn a new sport, experience some real adrenaline and have some genuinely unforgettable shared experiences that will last a lifetime.

## Location

Location is everything, particularly when you've got your little ones in tow. If possible, try to choose a property that's either close to the ski school meeting point or close to a ski bus stop. It can be tricky to carry your own ski equipment and your child's for more than a few hundred metres. You don't need a 30 minute round trip when you realise you've left a little pair of gloves back at the hotel.

It's also worth thinking about a resort that's not too big. You may like to give your older children some freedom in the afternoon to explore. If the resort is a small village, you may feel more comfortable doing this. Resorts like St. Johann or Westendorf in Austria or Soldeu in Andorra are ideal choices.

Choose a resort or hotel with sports facilities. Depending on your chosen resort, ski school tends to finish up early in the afternoon. It's always a great idea to have another activity available. A swim is a great way for all the family to relax and unwind after a day on the slopes. Many resorts will also have facilities like bowling alleys and ice-skating. See the brochure and our website for further details.

## Travelling

Depending on the ages of your children and on where you've had to travel from that morning, please be aware of the transfer time from airport to resort. A three hour coach transfer with young children may not be for everyone. In all cases Topflight try to give the most accurate transfer times. However, weather can play a big part on travel times in the mountains so please bring some extra snacks and games in your hand luggage in case of delays.

We suggest the whole family wear their ski jackets when travelling to and from Ireland. If you need to stop the bus on the way to resort, temperatures can be considerably colder than when you left the airport. They can also double as pillows!

If travelling with an infant, please be aware you may not be able to access your suitcase before your arrival at your hotel so it's worth packing some extra nappies, muslin cloths, dry clothes and bottles in your hand luggage.

## Packing

Comfort is key. The most important thing is to have your child in dry warm and comfortable clothing. If at all practical, bring two sets of ski trousers. We find in many cases, children spend most of the day in their salopettes and then straight into their PJ's for bed. Invest in a good pair of mittens or gloves for your children. For good circulation, it's best to have a pair which are slightly too big than too small. If possible, pack a second set of older gloves for messing around in the snow after ski school. Do try to get everything warm and dry for the following morning, socks included.

December and January are generally the coldest months in the Alps. We suggest wearing base layers. Protection from the sun is so important on the mountains where its effects are amplified by the glare off the snow. Sunglasses with a strong UV protection are an absolute must. If you don't already own ski goggles, you could wait till you arrive in resort to decide whether you require them. Unless it's actually snowing, you may not need them. We recommend a sun cream with at least an SPF of 50 for kids. Make sure you pack a little tube into their jacket pocket in the morning.

## First Morning

If you have time in the afternoon or evening when you arrive, it's worth taking a little stroll around the resort to familiarise yourself with the location of the ski hire shop, ski school meeting point or the ski bus stop. This will make for a hassle free first morning. It may be possible to collect your equipment from the ski hire shop when you arrive. Please check this with your Topflight representative in the resort.

Give yourself some extra time on that first morning. School holidays are busy periods and queues at the ski hire or ski lifts may be longer than usual.

Lift tickets should be kept in a safe pocket with a zip and ideally attached to something within the jacket pocket. If lost, it's unlikely you'll receive a refund for a ski pass. Identity bracelets are also recommended, particularly for young children.

When you're dropping your children off at ski school discuss the day with them and ensure they know what to expect in terms of taking lunch and meeting you later that day. Once at the ski school, leave your little one in the capable hands of the ski instructor. The instructor will require the full attention of your child, particularly in the early stages. If you feel the need to hang around, you're welcome to do so.

# Group Ski Holidays

Going on a group ski holiday is an experience not to be missed. Travel together, ski or board together, laugh together and enjoy après ski together – group ski holidays are fantastic and will ensure that you will have shared memories to last a lifetime. The après ski element also forms an integral part where you can recount all the adventures of the day! There is so much more to do off the piste, simply talk to your Topflight representative in resort and they will be more than happy to discuss various après ski options with you such as snowmobiling, mountain restaurant evenings, shopping trips to ensure that your group fun continues off the slopes!

To ensure that you arrange the perfect ski holiday for your group, please consider the following:

- Type of resort you'd like
- Skiing abilities of your group
- Preferred accommodation type
- Importance of resort nightlife
- Non-skiers in the group

Once you have considered the above, our experienced ski groups department are on hand to discuss, guide and help you arrange every aspect of your personalised group holiday. With years of experience in the organisation of group holidays and indeed organisers of the biggest Irish Ski Trip – The Topflight Today FM Ski Trip you can be confident in letting us take the hassle out of organising your group. Topflight are the specialists when it comes to organising ski holidays for groups.

Once booked, we'll provide you with a login to Topflight.ie. From here you can set up accounts for all your party members allowing them to make payments, amend their ski packs and view the full details of their booking. # Fits like a Glove

## Welcome to Norway

As the birthplace of skiing, Norway prides itself on offering a unique and authentic style of winter holiday. Skiing is the national sport and a cherished tradition here, and the Norwegians are only too happy to share that tradition and passion for skiing with you!

We're not just talking about downhill either; Norway is the absolute cradle of cross-country skiing, which is virtually considered to be a human right and is offered free throughout the country. It's also the home of traditional Telemark, a style of skiing best aspired to by advanced or expert skiers.

From Lillehammer to Trysil, Norwegian ski resorts enjoy a long season with guaranteed snow. As a visitor, you get to enjoy unspoilt landscapes, quiet slopes and a very friendly welcome.

The experience is different to the big busy resorts of Europe with a local scene, plenty of runs to suit beginners and intermediates, and the choice of steeper, more challenging terrain for advanced skiers or boarders, including the downhill course from the 1994 Winter Olympics at Lillehammer.

The focus in Norway is on creating safe ski areas for families and while lift systems are modern and efficient, the aim is not simply to herd thousands of skiers up the mountain on an hourly basis. Lift queues are unusual and slopes are quiet, which may result in the feeling that you've wandered into your own private ski resort.

Loon, Cannon Mountain, Waterville, Cranmore and Bretton Woods offer 340 trails between them - hire a car and choose where to ski when you want and wherever the snow is best.

Ski areas tend to be smaller, more local affairs which is a bonus for families. New Hampshire takes safety very seriously and you will find special family slopes where faster skiing is actively discouraged by ski patrollers.

New Hampshire has also embraced non-ski activities like winter zip-wiring so there's something to suit all tastes. And of course we're not forgetting those famous New Hampshire breakfasts, topped off with locally produced maple syrup, the perfect start to a day's skiing or boarding!

Killington boasts no fewer than five terrain parks with a 500-foot long super pipe to keep the most fervent boarders and free stylers busy.

# Less Lift More Ski

Welcome to France

How can we say it? Size matters and France simply has the largest ski network and best variety of resorts in the world.

The French Alps are ideal for ambitious intermediates keen to clock up as many kilometres as possible on the mountain or to venture off-piste. But with 425km of terrain in the Paradiski region and a massive 600km in Les Trois Vallées, French resorts offer something for everyone, including families, groups and couples.

From traditional Savoyarde villages to modern convenient resorts, the choice is yours. Many resorts offer ski-in, ski-out accommodation that's ideal for families and excellent crèche facilities for younger children

while 'foodie' couples will revel in gourmet stores, Michelin star restaurants and thermal spas.

It's no coincidence that 'après-ski' is a French phrase and one of the reasons that many groups are drawn to French resorts. While not quite reaching Austria's dizzying standards, French après-ski is improving. Dance on the tables at La Folie Douce or Le Rond Point in Les Trois Vallées then relax in the comfort of your mountain home-from-home.

This winter, Topflight are offering a range of beautiful chalets in La Plagne, Val D'Isère, Méribel and Les Arcs. With a choice of contemporary or rustic style, everyone gets to enjoy great food and stunning views!

The ski terrain of France's Tarentaise and Haute Savoie regions is vast and as well as investing in modern lift systems to help you explore it, French resorts are highly innovative when it comes to non-ski activities.

If there's a new winter sport to be invented, they will surely be the first to try it, whether it's Tyrolean zip-wiring at 3,230 metres, mountain-biking on snow, speed-riding or learning to drive a piste-basher!

Above all, we adore the grown-up approach that the French take to winter sports – enjoy every pleasure of the mountain they say, and take responsibility for yourself while doing so. Bon chance!

The appeal of Val Thorens is beautifully simple; it's the highest resort in Europe and as a result, one of the most snow-sure. A fast lift system means more time on the slopes for you. The Cime de Caron cable car takes skiers and boarders to the summit of the entire Three Valleys area (3,230m). From here, soak up panoramic views of a thousand French, Italian and Swiss summits. Then, savour a network of runs around Val Thorens, Méribel, Courchevel and Les Menuires that will change your perspective of what a hard day's skiing is all about.

If you're an adventurous intermediate looking to go off-piste for the first time, rent a pair of fat skis, hire a mountain guide and explore routes like the Lac du Lou itineraire to take your skiing to a whole new level.

Val Thorens is purpose-built and in recent years, many buildings have been restored with wooden cladding to give the resort centre a more pleasing ambience. There's a young buzzy atmosphere with après-ski kicking off from 3pm at La Folie Douce but for those who've waved goodbye to their table dancing days, the resort is also home to a two star Michelin restaurant, L'Oxaly.

Val Thorens encourages its guests to be adventurous; it offers a boardercross course, mountain biking on snow, ice driving and last winter, launched the highest, longest zip wire in the world. La Tyrolienne whizzes hardy souls along a 1300 metre-long wire at speeds of up to 105km an hour, 250metres above the ground. Now that's what we call a Val Thorens high!

Méribel, comprising Méribel Centre, Méribel Village and Méribel-Mottaret, lies at the very heart of the Three Valleys and is an ideal base for skiers and boarders of all levels, with 150km of its own slopes and quick access to all 600km of runs in the area via an excellent lift system.

The centre of Méribel consists mainly of wood and stone-clad chalets which blend into the resort's natural woodland setting. On the mountain, early intermediates will enjoy the Altiport run while more advanced skiers and boarders will find a playground in the Mont Vallon sector. Méribel's tree-lined runs are perfect for days when visibility is poor, although the resort generally enjoys a sunny disposition.

Nightlife is lively. Après -ski begins with a 4-5pm happy hour at the legendary Rond Point, aka 'The Ronnie', followed by a quick and often hilarious ski down to Le Pub or La Taverne for live music. For the French experience, head to Bar Au Vin or Le Poste de Secours.

A satellite resort perched above Méribel, Mottaret enjoys views of the beautiful Allues valley. A great option for doorstep skiing, it offers easy access to the entire ski area and gives families or groups a more laid back option. A small resort centre offers a number of bars, including Le Rastro, shops and restaurants and there's a regular bus service to the centre of Méribel.

A traditional spa town, Brides Les Bains is situated at the base of the Three Valleys and while it takes a little longer to reach the main Three Valleys ski area in the morning, it offers the best of both worlds for holidaymakers who want access to 600km of ski terrain with the charm of a spa town and quieter night life.

Naming this area Paradiski was no overstatement – this 425km of mainly blue and red ski slopes is an intermediate's paradise. Les Arcs offers doorstep skiing and boasts a great variety of runs to suit all levels, including gentler slopes for younger family members and steeper, more challenging runs for fearless older siblings or parents!

Advanced skiers and boarders will delight in the resort's snow parks and its many off-piste opportunities; it's no coincidence that former Freeride World Champion and extreme skier Adrien Coirier hails from and is based in Les Arcs.

While much of Les Arcs' 200km terrain is broad and wooded, the 7km long Aiguille Rouge or 'Red Needle' run starts at the resort's highest point with a 2,000 metre descent to Villaroger and will keep more ambitious skiers happy.

Les Arcs consists of four purpose-built, car-free resorts – Arc 1600, 1880, 1950 and 2000 – which vary from lively to quiet in terms of nightlife and offer a high standard of comfort with easy access to the slopes. Much of Les Arcs architecture is modernist – some would say brutalist – but Arc 1950 is designed on a traditional Alpine village. A free shuttle service runs between all resorts, although we reckon once you've settled into yours, you probably won't want to venture any further!

Activities in Les Arcs include speed riding (a mix of paragliding and skiing) first tracks and snow body boarding.

La Plagne gets our vote for families, not only because of its gentle wide open slopes and well-placed nursery slopes but because of the fun non-ski activities that it offers.

La Plagne sounds like one resort but actually consists of ten centres, including the areas in which we have our accommodation – Plagne 1800, Plagne Soleil (2,050m) and Belle Plagne (2,050m). Six of the centres are high altitude purpose-built stations and four are traditional villages.

Purpose-built and functional, Plagne Centre caters primarily for families although couples or groups will find fun in Scottys, La Luna, Igloo and La Cheminee bars. For lunch on the mountain, Le Chalet Des Verdons Sud is a must.

La Plagne is also something of a gem for freeride fans – because the majority of skiers are intermediates, fresh powder doesn't get tracked out as quickly as it would in big name off-piste resorts.

Another massive attraction in La Plagne is its bobsleigh track. Those who don't know what fear is can ride the high-speed bobsleigh with a professional driver or take a solo Luge ride; the rest of the family can have fun in the Bob Cart, which carries four passengers, travels at speeds of up to 85kph and provides videos to prove you've actually done it.

If you're planning on holidaying with friends in La Plagne but are booking separately, it's worth having a discussion beforehand to ensure that you all end up in the same resort centre!

**APRÈS SKI**

Plagne 1800 has a small selection of bars and restaurants. For guests looking for more lively après ski, the resort runs a free bus service until midnight to Plagne Centre and Plagne Bellecote. There is a great choice of places to eat throughout the villages and a variety of bars and cafés. Try La Tete Inn and Saloon Bar in Belle Plagne, the Cosy Bar and Showtime Café in Bellecote and the Luna in Plagne Centre. Most of the late bars run courtesy buses to drop guests back to their villages.

Please note, local taxes apply.

Linked with Tignes to form l'Espace Killy, Val d'Isère is a world-class ski resort with an attractive centre, lively nightlife and some of the best lift-accessible off-piste terrain in the world.

Ambitious intermediates, advanced skiers or boarders and experts will be in heaven here, with 300km of pistes to explore and huge opportunities for off-piste and ski touring. While intermediates will enjoy the challenge of the steep black Le Face Olympic downhill run, there are lots of schools offering off-piste lessons and guiding to explore the area's seriously impressive expert terrain.

Ski the lower tree-lined slopes of Le Fornet on white-out days and blast the Bellevarde slopes when the sun is shining, all the time secure in the knowledge that Val d'Isère has an excellent snow record and some of the most beautiful scenery in the Alps.

Val d'Isère's nightlife ranges from lively (think live music and younger clientele in the Moris pub, Pacific bar and Petit Danois) to sophisticated (think wine bars and double Michelin star restaurants). Must-visit restaurants are La Fruitiere, part of La Folie Douce Après -ski bar on the mountain, and l'Edelweiss for Savoyarde specialities.

Val d'Isère is one of the world's leading resorts and you get what you pay for. Prices can be higher but it is also possible to eat and drink quite reasonably.

# All mountain

Welcome to Austria

# All day

When a passing local says Servus (hi) or Tschuss (bye) to you, you know you're in a friendly Austrian ski resort.

It has proven impossible to knock Austria off its number one spot as Ireland's favourite ski destination and it's easy to see why.

From Salzburgerland to Tirol, Austrian ski resorts combine a winning mix of tradition and fairytale prettiness with inter-connected ski areas and a massive dollop of good old-fashioned fun.

Short airport transfers are ideal for families, with many resorts just 90 minutes from Salzburg. In resort, families will find a welcome and standard of care for children that's hard to beat.

Another plus is that many Austrian resorts – especially those catering for beginners and intermediates – are compact and easy to get around. No hauling the whole family's ski gear from one end of the resort to the other!

But for us, the biggest plus when skiing or boarding in Austria is its value-for-money. Lunch on the mountain and drinks in the evening seem so much sweeter when prices are affordable!

The Austrians are passionate about skiing and tourism. Oh and let's not forget wellness pampering yourself is taken very seriously in Austrian resorts with both traditional and contemporary thermal spas a standard.

Higher resorts are snow-sure and Austria invests heavily in snow-making to ensure that you will always get skiing. The SkiWelt area alone has 1,500 snow cannons ready to fluff up those long blue runs for you.

Larger resorts have a cosmopolitan feel and more challenging ski terrain to satisfy the most expert skier or boarder. Increasingly, Austrian mountain restaurants have a reputation for excellent food and various resorts host music and comedy festivals during the winter.

There are excellent snow parks for boarders and freestylers in resorts like Mayrhofen, night skiing in Soll and Kitzbuhel, and back country/ski touring options for the hardcore element near Bad Hofgastein. Tshuss!!

Small but perfectly formed, St Johann has 60km of slopes and 17 lifts to a maximum height of 1,600m; perfect for beginners and intermediates. More advanced skiers and boarders can avail of the Schneewinkel lift pass which gives access to 170km of terrain in nearby resorts or the Kitzbühler Alpen lift pass with access to 1,000 km of slopes in nine other resorts in the region. The easiest additional ski terrain to access from St Johann is in Kitzbühel, a ten minute bus or taxi ride away.

Nestled between the peaks of the Wilder Kaiser and Kitzbühlerhorn, St Johann's centre is attractive, bustling and a car-free zone, a match for Austria's best traditional ski villages. The resort is extremely popular with Irish skiers which often means that you'll join other Irish families in ski school, a bonus if you inadvertently end up at the back of the class. As if!

St Johann has 19 mountain restaurants, a good snow record and lots of off-slope activities. It even has a dedicated trail for shooting your own ski movie! Spend the day perfecting your ski technique with the Wilder Kaiser ski school instructors then top it all off with Après -ski at Max's bar.

Söll is the kind of all-rounder that other ski resorts envy. It's small but delivers on lively, affordable nightlife. It has also found the secret of appealing both to families and younger holidaymakers in search of the next party. Most importantly for skiers and boarders, its slopes are north-facing which means they hold the snow for longer.

Regarded as the liveliest resort in the SkiWelt, Söll is the main gateway to 279km of slopes in Austria's largest ski network. It has extensive snow-making facilities and caters mainly for intermediates and beginners. 48 percent of its slopes are red, 46 percent are blue and 9 percent are black, although our spies tell us they veer towards the friendly side of black! Those in search of a challenge will enjoy the Hohe Salve run.

Another secret to Söll's success is its night-time skiing, some of the best we've experienced with uncrowded, well-lit and immaculately groomed slopes to blast down. There's also a hugely enjoyable tobaggan run next to the flood-lit slopes. St Patrick's Day is a must-see here with a parade, the night ski slopes are lit up in green and an array of events throughout the week.

For quality Après -ski and nightlife, our Söll spies recommend the Salvenstadel, the Red Horse and the Whiskeymühle.

### CHILDREN'S FACILITIES

- Bambini Ski Kindergarten (Mini Club): Age: 3-5 years inclusive, Sunday to Thursday from 9.30am-4.00pm. Lunch and lunchtime supervision available. For bookings and more information see [www.skischule-soell.com](http://www.skischule-soell.com)

### APRÈS SKI

Nightlife is vibrant with bars, discos and restaurants to suit every taste. Söller Stube is a cheap and cheerful eatery, while Bella Vita and Auf der Muhle serve excellent steaks and pasta, and you can always rely on the popular Pizzeria Giovanni. Lively bars include the Underground and the Söll sports bar which doubles as the Red Horse nightclub. Whiskymühle disco also provides late night fun.

# Westendorf

Westendorf surprises with a good variety of intermediate terrain in the Choralpe and Gampen Kogle areas. There are plenty of wide open blue runs for beginners and intermediates with some nice challenges for more experienced boarders and skiers.

Situated in the heart of the Brixen valley, this cosy, unspoilt village is connected by gondola to the SkiWelt, which has 279km of runs, 90 lifts and 1,500 snow cannons. The SkiWelt has invested 23 million euro in lift infrastructure and it shows – the ski villages may be pastoral and unspoilt but the lift system is super modern and efficient!

From your base at Westendorf, complete the SkiWelt circuit in both directions, savouring the different characteristics of Brixen-im-Thale, Soll, Scheffau, Going and Ellmau along the way.

One major advantage for families staying in Westendorf is that much of the accommodation, such as the Hotel Post or Hotel Jakobwirt, is situated 50 or 100 metres from the nursery slopes. Cross the street and you're there! Another few metres and you're at the Schneeberg lift, which takes you to the Alpenrose gondola.

That proximity works well for groups and couples too – cross the street after a pleasant day's skiing and you're in the Hotel Post bar for Après -ski!

**CHILDREN'S FACILITIES**  
• The ski school offers "Bobo's mini club" for children aged 3-4 years with a dedicated children's area that boasts wonder carpets, a children's carousel, camel hump run, a bambini lift and much more! This is available Sun-Fri 10am-12pm & 1.30pm-3.30pm. Approximate cost for 6 days x 4 hours is €155. Lunch and lunchtime supervision are available from €10 per day. Topflight recommends pre-booking especially in high season. For bookings and more information see [www.schischule-westendorf.com](http://www.schischule-westendorf.com).

**ACTIVITIES**  
• Tobogganing • Cross country skiing  
• Sleigh Rides • Cleared Walks • Bowling  
• Ice Skating • Paragliding • Snow shoe walking • Guided hiking tours  
• Excursions to Salzburg and Innsbruck

**APRÈS SKI**  
Kibo Bar has a good atmosphere and music, or try Ins Moment (Campbell's Bar) or Dorfer Bar. For cheap and cheerful food, try Mundart or Burli's snack bars. Other popular eateries include the Hotel Post à la carte restaurant and Wastlhof. For a special occasion, Fein Sinn does great steaks and pizzas. Zieplhof and Maierhof on the mountain serve fondue.

Kitzbühel is our idea of a fairytale ski resort, not only because of the five star hotel Schloss Lebenberg, a converted castle that looks out over the valley but also because 'glitzy Kitz' is the archetypal alpine ski resort.

Its history dates back to 1165 and is reflected in the resort's architectural stature and local wealth. Hotels are mainly four or five star and while traditional tea rooms beckon to you after a day on the mountain, Kitzbühel's elegant boutiques also vie for your attention.

The resort's biggest claim to fame is on the mountain. Skiing takes place in two areas, the Kitzbüheler Horn and the Hahnenkamm, home to the World Cup Downhill race and the jewel in the crown of Kitz's 170km of slopes. Test your nerve on the famous 32km 'Streif' run, tackle its ski routes or experience night-skiing.

The resort is situated at 760 metres with skiing up to 2,000 metres. Kitzbuhel has extensive snow-making capabilities and a five star lift system which includes the cross-valley 3S Train directly linking it with Jochberg and Resterhohe.

Kitzbühel also offers a range of winter hiking trails, moonlight snowshoeing, sledging and 120km of cross country trails. That's if you haven't discovered the Londoner bar, O'Flannigans, the Casino or the wealthy Austrian hang-outs first!

## CHILDREN'S FACILITIES

- Kinderland for children aged 3 years and over offers a specially designed kids area with lots of colourful tools and fun games making learning easy for little skiers. Open 10am-12pm & 1.30pm-3.30pm. Lunchtime supervision can be arranged locally. For more information and bookings see [www.rote-teufel.at](http://www.rote-teufel.at)

## ACTIVITIES

- Aquarena centre with large fun pool (50% reduction to swimming pool with 6-day lift pass) plus mud baths and saunas (extra charge)
- Tennis & Squash
- Ice Arena
- Casino
- Cleared Walks.

## APRÈS SKI

Kitzbühel can be as chic or as informal as you like. Popular bars include the Londoner (live music every night), O'Flannigans Irish bar, Jimmy's, Das Litchl & Stamperl. For eating out try Huberbrau or Landhausl. Kitzbühel's casino also has an excellent restaurant and the Hahnenkamm mountaintop restaurant, the Hochkitzbühel, is recommended. The gondola reopens from 5.45pm-11pm to accommodate diners. Booking required.

**APRÈS SKI**

Kirchberg has a lively après ski scene. Party all night at the Boomerang Pub, Der Tiroler, London Pub, Eisbar, Vis a Vis and Schatzi's. There are restaurants serving everything from pizza to sauerkraut. Worth trying are the Kupferstuben, Asado's Steakhouse, Pizza per Tutti and Pfeffermühle in Hotel Alexander.

Talk about sitting pretty! Situated in the heart of the Kitzbüheler Horn, the lovely resort of Kirchberg offers easy access to Kitzbühel's 170km of slopes on one side and links into the 279km SkiWelt on the other.

Best of all, it offers access to these ski areas with cheaper prices than upmarket Kitzbühel, which is just six kilometres away. Who said it's not possible to have it all?!

Kirchberg's main lift, the Fleckalmbahn, feeds directly into the Kitzbühel ski area with its challenging Streif and Hahnenkamm ski runs. In the opposite direction, the Ki-West gondola takes piste-hungry skiers and boarders to Westendorf and the other resorts of the SkiWelt.

Kirchberg is a great spot for families, groups and couples, whether they're beginners or intermediates. Novice skiers start out on the gentle nursery slopes of the Gaisberg mountain while intermediates can throw themselves into the fun of the Kitzbüheler ski circus. For fun-loving boarders, there's a half pipe and fun park on the Kitzbüheler Horn.

Kirchberg has a village atmosphere and a young, lively nightlife. It's a good-sized resort with plenty of facilities, gemütlich (cosy) mountain restaurants and excursions to Salzburg and Innsbruck.

200km of Ski Circus slopes, 50 lifts and efficient links to Hinterglemm and Leogang; Saalbach has everything the ambitious intermediate needs. Situated in Salzburgerland, its biggest talking points are the Saalbach and Hinterglemm ski circuits, which consist mainly of blue runs and can be completed in a day.

With a largely car-free resort centre and lots of good mountain huts, Saalbach is our pick for mixed groups, with ten km of cross country trails, a natural ice rink and the Flying Fox XXL zip wire. It also offers SkiMovie courses, speed courses and varied terrain that includes moguls and ungroomed slopes.

We love it when ski resorts provide us with shelter and warmth on snowy days and for this alone, Saalbach gets brownie points. Its impressive lift system has been upgraded in recent years to replace a number of drag lifts with covered, heated six-man chair lifts.

On February 21 and 22, 2015, the Men's Ski World Cup, featuring downhill and Super-G races, will bring an even bigger party atmosphere to the resort, which is known for its beer halls, piano bars, winestubes and clubs.

In the unlikely event that they ever tire of the resort's two halfpipes and fun park, families will enjoy a visit to the Tree Top path and Golden Gate Bridge of the Alps, a 1km-long round path through the trees that's open 365 days of the year.

Picture a beautiful frozen lake below as you cruise the blues and attack the reds – this is Zell am See in winter time. Next, picture a 3,000 metre glacier, a playground for piste hounds and freeriders alike – this is the Kitzteinhorn glacier at Kaprun. Together, they create a holiday combination that Topflight skiers and boarders love.

An old market town that grew in stature with the construction of a railway, Zell Am See is part of the Europea Sport Ski area and offers 138km of varied terrain on the Schmitzenhohe, including gentle terrain for beginners, steeper slopes for intermediates and a fun park.

The resort is situated in an area of natural beauty with views of Austria's highest peak, the majestic Grossglockner.

In ski terms, the beauty of this area is the short bus ride to the Kitzteinhorn, which opens up on-piste and off-piste options for passionate skiers and boarders to have fun with. For culture vultures, Kaprun is also home to a medieval castle.

The centre of Zell Am See is lovely to wander around. Enjoy the weekly market, relax with a Glühwein after skiing and succumb to the Après -ski experience that is the Crazy Daisy!

- CHILDREN'S FACILITIES**
- Ski kindergarten for non-skiing children aged 2 to 3 years available Sunday-Thursday 9.30am-3.30pm. Approx. cost for 4/5 days: €180. Lunch and lunchtime supervision can be arranged, approx. €11 per day.
  - Miniclub for children aged 3-4 years offers a specially designed learn to ski area with practise lifts, ski merry go round, wave channel plus much more. Approximate cost for 5 half days: €180.
  - Topflight recommends pre-booking, especially in high season. For bookings see [www.ski-zellamsee.at](http://www.ski-zellamsee.at).

- ACTIVITIES**
- Swimming pool
  - Ice skating
  - Fun night with tobogganing and tubing
  - Sleigh rides
  - For a family evening out, or just to relax away from the slopes, try the new Tauern Spa on the outskirts of Kaprun, €18 for 3 hours plus €9 for the sauna area
  - Excursions to Salzburg.

- APRÈS SKI**
- Zell am See offers lively nightlife, from traditional zither music to discos and live bands. A Little Bit of Irish is the only non-smoking bar. Other popular bars include Pavillon, Lederhosen, Cabrio, Schnaps-Hans and Crazy Daisy. Crazy Daisy's serves beer from the barrel and offers great food at reasonable prices. KupferKessel is another popular restaurant.

Laughter and fun are guaranteed in the Tirolean resort of Mayrhofen – from March 23 to 27th 2015, it will host the annual Altitude comedy festival, curated by Irish comedian Andrew Maxwell. That's not where the festival fun ends – Mayrhofen is also home to the Snowbombing music festival from April 6th-11th.

But even without all that festival fun, Mayrhofen is a top notch resort that's popular with confident intermediate skiers, snowboarders and families alike. It's home to an impressive cable railway but more importantly, it's home to the Van Penken terrain park, widely regarded as one of the best in Europe.

The Van Penken has six different areas – kids, fun, medium, advanced, advanced kickers and pro. You will be forever loved if you bring aspiring freestylers here!

The main town in the Ziller valley, Mayrhofen's skiing is in two areas – Penken and Ahorn - with over 100km of slopes. The high altitude Hintertux glacier is also nearby, guaranteeing snow, while the Zillertal Super Ski pass opens up a seemingly endless variety of ski terrain in the wider area.

The resort is a traditional village which not only manages to satisfy our partying needs but is also family-friendly, with excellent children's facilities.

### CHILDREN'S FACILITIES

• Ski Kindergarten: Wuppy's Kinderland (centrally located, 5 minutes from the Penken cable car) is Mayrhofen's kindergarten and crèche. Trained staff are on hand to look after and supervise infants from the age of 3 months to 7 years. You can hire cots, prams and baby slings for €4 per item per day. Wuppy's kindergarten is equipped with playpens, playrooms and nappy changing facilities. Opening times: 9.00am - 5.00pm (Monday-Friday). Half day €18, full day €29, five days €135. Supplement for children's menu: €4 a day. Bookable & payable locally. For bookings call 0043 5285 63612.

# Need a lift?

Welcome to Andorra

Duty-free shopping, tapas restaurants and a relaxed vibe on the slopes; is it any wonder Andorra has become such a favourite among Irish skiers and boarders!

Set high in the Pyrenees between France and Spain, this tiny principality has invested hugely in upgrading its lift systems, terrain, snow-making and activities in recent years. It also has a strong snow record.

It now boasts a 200km connected ski area – Grandvalira – to rival many top European ski regions. The Grandvalira lift pass gives you access to 64 lifts and 118 slopes around popular Soldeu and party-mad Pas de la Casa.

Arinsal in the Vallnord area is situated in the west of Andorra and while it's quieter and smaller than hotspots like Pas de la Casa, it's home to a freestyle area and plenty of good nightlife.

Whether you choose Grandvalira or Vallnord, you will find the same friendliness, value-for-money and excellent ski schools. Andorra is regarded as having some of the best ski schools in Europe with English-speaking instructors and a high level of instruction.

Andorra's slopes offer a wide variety to suit beginners, improving intermediates and perhaps unexpectedly, off-piste fans who

make a bee-line for the free-ride slopes of Arcalis. Whether you're bringing the family, are looking to party hard or fancy a girlie ski, spa and shopping break, there's something for everyone.

One of our favourite things about Andorra is that you can take time out from skiing or boarding and spend a day in Andorra La Vella, the capital. Luxuriate in the Caldea Spa with its 25,000 square metres of hot springs, thermal spas, jacuzzis and saunas or browse the city's many shops for duty-free bargains.

Top it all off with dinner in a tapas restaurant and you have a recipe for pure winter holiday happiness.

A single lift pass covers three areas in Vallnord – Arinsal, Pal and Arcalis. With a high point of 2,560metres, 63km of terrain and 31 lifts, families enjoy Arinsal's smaller scale while younger groups love its lively nightlife. Freeride fans will discover something of a hidden gem in nearby Arcalis. Linked to Arinsal by bus, it has off-piste terrain to keep even the most fervent powder hound satisfied.

Situated in the west of the Andorran pyrenees close to the Spanish border, Arinsal's beginner slopes are perfect for young children learning to ski while intermediate skiers and boarders will enjoy its wide open slopes and the pretty, tree-lined runs at Pal.

For a relatively small area, Vallnord offers an amazing range of activities, including baby clubs, airboarding, boardercross, a freestyle area for teenagers, ski biking, speedriding (a combination of paragliding and skiing), sledging, a children's snow park and avalanche training for off-piste skiers and boarders.

The resort offers a range of restaurants including Catalan, Mexican, Italian and Argentinian while some bars are family-friendly, with regular entertainment. Catalan is the official language but English, French and Spanish are widely spoken. As the Catalans say, bones vacances!

Pas de la Casa's name literally translates to 'the pass of the house' referring to the fact that until the early 20th century, only a single shepherd's hut overlooked the pass.

Well how times have changed! Developed as a ski resort in 1956, Pas de la Casa now has a reputation as one of the liveliest, youngest resorts in Andorra with a choice of bars and discos that will bring your après-ski to a whole new level.

There's no excuse not to bring your skiing or boarding to a whole new level either. The highest resort in Andorra with lifts to over 2,500 metres, Pas de la Casa is part of the 210km Grandvalira ski area, the biggest ski area in the Pyrenees. With links to Grau Roig and Soldeu-El Tarter, you'll find gentle green slopes for beginners, an extensive range of reds and blacks for more experienced skiers and four snow parks for boarders and freestyle fans.

Pas de la Casa also offers a range of activities with a freeride area, freestyle classes, dog mushing, snow biking, snowshoeing and other family-friendly activities.

Note: the resort doesn't accept bus traffic which means that guests are required to walk a short distance with their luggage on arrival and departure.

**ACTIVITIES**

- Snowmobiles/skidoos
- Leisure centre with swimming pools, gym, sauna, jacuzzi, squash, table tennis etc (entrance fee approx €8)
- Mountain paragliding
- Activities organised by your Topflight representative

**APRÈS SKI**

Pas de la Casa is famous for its lively après ski. Popular clubs include the Amadeus disco pub, Underground for house and dance music and Billboard in the Condor Hotel. There are several Irish and English pubs, including Avalanche in the Himalaia Pas Hotel, Crack and Milwaukeee.

The Grandvalira ski area has invested 1bn euro in infrastructure in recent years, expanding terrain, developing a lift system that can take over 100,000 skiers an hour up the mountain, extending snow-making facilities and introducing new activities.

The investment is clear to see in Soldeu, home to the fantastic Sport Wellness Mountain spa with its 5,000 square metres of spa facilities. It's one of those places we find ourselves dreaming about as ski season approaches!

Set in the heart of the Andorran Pyrenees, sunny Soldeu is a great base from which to explore the 210km Grandvalira ski area, taking in neighbouring El Tarter and nearby Pas de la Casa during the course of a ski day.

Soldeu offers value for money for families, lively nightlife and a great ski school with English-speaking instructors. It also has terrain to suit all levels; there are excellent beginner and early intermediate slopes, two free-ride areas and an extended terrain park. If you're feeling fit, head to the Aliga slope in El Tarter which was revamped and approved as a downhill race course a few years ago!

#### CHILDREN'S FACILITIES

- A crèche located at the top of the main gondola station in both Soldeu and El Tarter is available for children aged 2-4 years during adult ski school hours only.
- Snow Garden for children 4-5 years, approximately €35 per half day, is bookable and payable locally, subject to availability. In Snow Garden, children enjoy fun ski lessons with games and activities. For more information and booking see [www.grandvalira.com](http://www.grandvalira.com).
- NB: Children must be collected for lunch.

#### ACTIVITIES

- Sports centre with ice-skating, indoor swimming pool, squash (located in Canillo, 15 minutes by bus) • Helicopter rides
- Skidoos • Igloo building • Archery
- Snowboarding (Night snowpark too!)
- Cross-country skiing • Snowshoe walking
- Mushing circuit • Activities organised by your Topflight Representative

# Always in Season

## Welcome to Italy

Never mind La Dolce Vita; Italian resorts enjoyed some of the best snow in the world last season.

Now take all that fresh powder; mix it with style, culture, gastronomy and affordable prices, and you have one of our favourite ski destinations in the world.

Italy has gained a reputation in recent years as a good value ski destination. When you consider that it also has some of the most truly stunning scenery in the Alps, it represents even better value for money!

Italian resorts cater brilliantly for intermediate skiers who like to cruise the blues and reds. Italian gradings for black runs tend to be kinder than France for example.

There's a plus side for off-piste skiers and boarders. Italian holidaymakers often care as much about shopping and promenading as they do about skiing and boarding so while they're browsing designer shops, there's more snow left for free-riders after a big snowfall! Savvy skiers and boarders staying in French resorts like Chamonix will often make a bee-line for Italy to eat up its secret snow stashes. Having said that, Italian resorts are starting to embrace the concept of freeride skiing so get there now while the powder is still pristine.

No day in an Italian ski resort is complete without promenading and enjoying an 'apero' before dinner. Think sparkling wines and Aperol-spritz.

La Dolce Vita dictates that the pace of life in Italian resorts is relaxed. Just as the Italians invented the slow food movement, there's now a slow ski movement, which encourages skiers to stop in between ski runs and savour their surroundings.

It's not all about blasting down the mountain at 70km an hour! Another excellent reason to stop on the mountain is to indulge in a wickedly creamy Bombardino, before or after lunch!

Nightlife is lively and late and Italian mountain cuisine can be as stunning as the scenery so we say ditch the Paleo diet, embrace the pasta or polenta and settle in for a charming holiday in la bella Italia.

**POINT CARDS LIVIGNO**  
(First Timer's Pack)

First time skiers and boarders packs include a pointcard for its lift system, the ski-school lift takes only 6 points each time, and with 400 points provided in this package, you are assured of more than 65 runs! Should you need more during your stay you may purchase extra points in the resort for €21.50 per 100 points.

'High altitude, low prices' is a phrase that every passionate skier or boarder likes to hear and duty-free Livigno near the Swiss border delivers both.

The resort has long been an Irish favourite for après-ski and nightlife, and with a highest point of over 2,500 metres, it also guarantees snow cover. Livigno offers excellent access to an extensive range of nursery slopes skiing for beginners.

115km of pistes are set out on the Costaccia/Carosello sides of the valley with 38 percent blue, 47 percent red and 15 percent black runs. There's a large choice of beginner slopes, a free-ride zone and when conditions are good, it's possible to ski back to the village.

But where Livigno truly excels nowadays is in its choice of terrain parks. It has four – one for beginners, one for children, one for intermediates and a main park at Mottolino with kickers, a super pipe, rails and a huge airbag for practising jumps safely. Talk about boarder and free-styler heaven. Oh, and throw in a boardercross course for good measure.

The centre of Livigno is lovely; car-free and definitely smart enough to merit a pre-dinner promenade but only after you've relaxed in the 20,000 sq ft Aquagranda Wellness Park, one of Europe's biggest and most integrated wellness facilities.

# General Information

## ACCOMMODATION GRADING

The star ratings used on hotels throughout the brochure are the official ratings awarded by the national tourist authority, where available. Where, in our judgement, a hotel deserves a grading higher than the normal grading, Topflight have awarded a "Plus" symbol to indicate this. Where official ratings are not available, we have awarded a Topflight star rating to guide you with your choice of accommodation.

In Andorra there is no official grading of hotels or apartments. Standards of hotels in Andorra don't necessarily compare with hotels in Austria or Italy. Variations of facilities and standards within the same hotel or apartment category can be significant. In our opinion, the difference in price charged by Topflight will be a fair reflection of this.

Don't always expect things to be the same as you are used to in Ireland as customs and service usually differ from country to country. For instance, twin beds in Europe may consist of two separate mattresses and duvets contained in one large frame.

Most hotels have rooms that will take an extra bed, if required. These beds may be foldaway beds or sofa beds. Linen may be changed only once a week. Single rooms are available on request and a supplement is payable.

In addition, the payment of a supplement does not necessarily mean that a twin room will be provided for sole use. Often single rooms are purpose built and intended for sole use only. Annexes to hotels may be directly owned and controlled by the hotel or contracted in private houses, within walking distance of the hotel. Guests with accommodation in annexes have full use of all main hotel facilities.

## ROOM SIZES

Room or apartment measurements specified throughout this brochure are approximate. Use only as a guideline.

## VACATION OF ROOMS

Rooms are not usually ready or available before midday on the day of your arrival. On day of departure you may be asked to vacate your room in the morning, usually before midday.

## CHILDREN'S REDUCTIONS

To qualify for the reduction in hotels, one child must share a room with two full fare paying passengers. Extra charges may apply in some hotels for facilities such as cots or high chairs. Cot charges are generally payable locally, prices vary from hotel to hotel. Our website will calculate the correct child prices based on the ages of your children.

Flight: There is a minimum charge of €50 for infants who have not reached their 2nd birthday before the date of return. All infants must sit on an adult's lap during the flight.

## Meal Arrangements

If you book half board, you will usually receive dinner on the day of arrival and breakfast on the day of departure. However, for late arrivals (after the hotel restaurant is closed) clients will normally receive a cold plate of limited choice and for early morning departures breakfast may not be available or a restricted choice may apply. It is possible that you may miss a meal due to the time of arrival or departure from your hotel.

If vegetarian meals are required, these must be requested from and confirmed by Topflight at time of booking. In Europe, breakfast is usually continental style unless otherwise stated. Most hotels require guests to order dinner from the menu the previous evening or at breakfast each morning. This is to ensure that produce can be ordered fresh each day. Some hotels require guests to share tables at mealtimes.

## FREE DRINKS

The number of free drinks given in a hotel is at the discretion of the hotelier.

## SELF-CATERING APARTMENTS

Self-catering apartments are based on occupancy as described in the brochure and may vary in standard and size. Linen is provided unless otherwise indicated, while towels and soap may not be. Guests may need to make their own beds on arrival. Cleaning is generally once a week on arrival. Some apartment accommodation in Andorra, France and Italy require a deposit on arrival against breakages. Studios and apartments may not always be ready for immediate occupation on your arrival, as the accommodation needs to be cleaned and checked after the departure of the previous week's guests. We will of course make every effort to ensure your accommodation is available as close to your arrival as possible. As deposits are normally held by the accommodation owner/management and not Topflight, we cannot become directly involved in situations or disputes that may occur. Credit cards and cheques are generally not accepted. Please note: Self-catering studios and apartments in France are compact in size.

## LOCAL TAXES

Local tax applies in certain resorts and to certain properties. These taxes are generally per person per night. Topflight has no control over these taxes and they must be paid locally in your accommodation.

## ANONYMOUS SNOW PENSIONS/APARTMENTS

If you book more than one room in anonymous pensions/apartments and are not a family group of the same name, accommodation may be in different pensions in the same resort. We do not guarantee all pensions used are featured in the brochure or website.

## HOLIDAY REPRESENTATIVES

The Topflight Travel Group Representative is there to make your holiday more enjoyable and to help you with any queries which you may have. Should you have any issues or queries regarding your holiday, please contact your holiday representative in resort.

## RESORT FACILITIES

Any resort facilities shown in our brochure are only an indication of the facilities that are usually available in that particular resort. Topflight do not have control over local facilities and activities. These can be withdrawn or changed locally without notice. If you have an interest in a particular facility (e.g. kindergarten or crèche) it is important to check with our reservations department close to departure for up-to-date information. Topflight will not accept any responsibility for failure to do so.

## CHILDREN

The safety of children is considered paramount. Parents should check that they are happy with

operated clubs, playgrounds and facilities provided by the accommodation of residence. Always familiarise yourself with the pool areas and depths.

## BUILDING WORKS

Many resorts are continuing to develop local economies and tourist industry, as well as making improvements to existing resorts. This means that in some resorts there may be building work and renovation programmes in place. We cannot predict when building work is likely to happen but when we do know, we will tell you.

## PASSPORT & VISA REQUIREMENTS

All Irish nationals including infants require a valid passport in their own name when travelling on holiday to any destination in the Topflight brochure, except in the case of holidays to the USA. Irish nationals are not required to obtain a visa for any holidays in this brochure. Passports should be valid for at least 6 months before your departure and after your expected return to Ireland. Non Irish nationals should consult their embassy for appropriate requirements at time of booking. Topflight will not accept responsibility for any passport related problems. For security reasons, the name on your flight ticket must agree with the name on your passport.

## PREGNANT WOMEN

Airline regulations vary but it is generally accepted that most airlines refuse to carry women who are more than 28 weeks pregnant by their return journey date. Contact your travel agent for any additional information. We also advise checking with your doctor prior to travel.

## BROCHURE ACCURACY & PRICES

We have made our best endeavours to ensure that the information contained in this brochure is current and accurately represents the holidays on offer. However, for example, facilities, special attractions and services may not be open or available due to renovation or maintenance work, low occupancy levels, adverse weather conditions, etc. Unfortunately, such changes are beyond our control and we reserve the right to change the particulars in this brochure. Where we are aware that a facility or service advertised in this brochure will not be open or available during the period of your holiday, we will take steps, wherever possible, to notify you prior to travel. This brochure was published in September 2014. Holidays in this brochure operate from November 2014 to April 2015. All information is correct at time of going to press but subject to change without notice.

## BAGGAGE ALLOWANCE

Baggage allowance and hand luggage details can be found on your travel documents (emailed prior to your departure). Charges will be incurred for excess baggage. Please check for baggage allowance at time of booking.

## LOST BAGGAGE

Please be advised that guests who leave items in resort should make a claim through their insurance. Topflight cannot be held responsible for items left in resort or arrange for return of these items to Ireland.

## HEALTH & SAFETY STANDARDS

Health and safety standards in some countries may not reach the same level as those enjoyed in Ireland, although all properties comply with applicable local and/or national health and safety laws. Monitoring and enforcement of such

are subject to the regulations of each country. We therefore advise clients to take all reasonable precautions while on holidays.

## HEALTH ON HOLIDAY

So as to avail of any necessary healthcare through the public system of the countries of the European Union or European Economic Area while you are travelling, you are strongly advised to obtain a European Insurance Card from your local Health Service Executive office. Increasingly, many hospitals insist on the production of an EHIC card as a prerequisite to treatment.

## FLIGHT SURCHARGES

All holidays in this brochure are subject to additional fuel charges imposed by airlines should the cost of fuel rise significantly. Such surcharges are outside of Topflight's control.

## TRANSFERS

Please refer to the information on resort pages for approximate transfer times and other details. These do not, however, allow for delays which may be caused by waiting for other incoming flights or local traffic conditions etc. In some cases, access by coach into accommodation is restricted. Holidaymakers may not therefore be transferred directly to the main entrance, and it may be necessary to walk a short distance with luggage.

## DATA PROTECTION
