<http://www.yachtworld.com/justcatamarans>

The Outremer 5X is elegant, fast, spacious and exciting. Her show stopping looks have a WOW factor and her performance will delight you. The 59ft flagship yacht is from the drawing board of world famous naval architects VPLP and has been designed to satisfy even the most demanding connoisseurs.

Being a full production boat (with semi-custom interior) she is built in a consistent manufacturing process, which assures bulletproof construction, reliability and excellent factory support.

Unlike any other large performance catamaran on the market, she is presently the largest high performance multihull with optional tiller steering. This provides not only thrill and fun at the helm, but also the best feedback and steering control.

The design is just as appealing as the performance, but don't just take our word for it! The Outremer 5X won the 2013 EUROPEAN YACHT OF THE YEAR convincing journalists from 11 countries to present her this honor. She also won Cruising World's 2014 BEST MULTIHULL OVER 50ft.

Price mentioned includes base price + offshore cruising package. Call Just Catamarans for next availability and to arrange an onboard visit.

Or meet us at the [2015 Miami Boat Show](#), February 13-16!

Photo shown is a sistership presently available for charter in the Med. Approximate 9 month new build delivery with next available slot now for July 2015. Please inquire for options pricing and current availability. Interior modifications can be custom made to suit.
