

# Polyester Braid

## Imagination is everything! Let us know your ideas

Available in soft and hard type. Can be used in various of applications due to its elasticity. We are using this braid to protect both the user and hose.

In which application are you thinking to use them? Let us know.

### Specifications

The inner diameters and maximum lengths written in below are of ready-made products. Request for other sizes, changes in hardness are most welcome. Contact us for more information.

Color	Thread Size (mm)	Inner Diameter, $\phi$
Orange	1.2	10, 11, 15, 20, 25, 30, 35
	1.6	25, 30, 35
	2.0	35
Green	1.2	10, 11, 15, 20, 25, 30, 35
	1.6	25, 30, 35
Blue	1.2	10, 11, 15, 20, 25, 30, 35, 44

1. Polyester Braid: Heat treatment is done to preserve the shape
2. Polymesh: No heat treatment is done

### Maximum length (Can be cut to desired length)

( $\phi$  10 ~  $\phi$  25) MAX: 25m    ※( $\phi$  35) MAX: 10m  
( $\phi$  11)                      MAX: 20m            ( $\phi$  44) MAX: 1.2m  
( $\phi$  30)                      MAX: 15m

We are applying this polyester braid on our hoses as bend and injury protector.

### Special size for polymesh

( $\phi$  30) MAX: 50m            ( $\phi$  40) MAX: 15m  
( $\phi$  37) MAX: 15m            ( $\phi$  70) MAX: 10m
