

K-12 FOOD + RESCUE

Announcements

Video/School-wide Announcements:

Help save the food from being thrown away!! Ms./Mr. _____ class is teaming with Food Rescue this year to help Save the Food! Instead of throwing away an unopened or packaged food item after lunch, place it in the Food Rescue bin.

The Food Rescue team prevents the food from going into a landfill by connecting it to a local food pantry instead.

There are Food Rescue bins near the trash cans. Unopened milk, fruits, snacks, cheese sticks, and juices are examples of food items we should keep out of landfills. Basically anything in a package. Food is not Trash!

Cafeteria Microphone announcement (Student):

Hey guys! My name is _____ and I wanted to let you know about a new school project. We are working with Food Rescue to try to decrease the amount of food our school is placing into the trash, where it ends up in a landfill.

Please consider putting your unopened milk, juice, and snacks in the Food Rescue crate or box at the end of lunch instead of the trash can. **FOOD IS NOT TRASH!** 😊

Cafeteria Microphone announcement (administrator):

Let's keep unopened food out of landfills. Once you have finished eating, if you have an unopened food item that you were going to throw away, it can go into the Food Rescue crates located by the trash cans instead. Food items like unopened milk, juice, and snacks can be rescued from the trash by placing them in the crate or box at the end of lunch. **FOOD IS NOT TRASH!**
