	110.			How will you work with community groups and residents on City matters?

1. Which committees, if any, would you combine or eliminate?

Before I would combine or eliminate any committee, each one would need to be evaluated from an internal point of view. Presently, I am not the current Alderman thus, an answer to this question should be reserved until after my first year in office.

2. What reforms are necessary in the City Council's committee rules and structure?

I would reform the committee rules and structures and other systems that allow recommendations to languish in committee. All items should be either removed from the committee's agenda or brought before the council for a vote. See the answer to Question 1 for further explanation.

12. Have you joined or will you join:

I will align myself with any group that serves the best interest and advances the agenda of the citizens of the 4th Ward and secondarily, the City of Chicago.

13. Do you support changing the state statute to return to filling aldermanic vacancies by special election, rather than Mayoral appointment?

As I understand the process, the Mayor appoints a temporary or interim Alderman until there is a special election.

14. Will you vote for an ordinance requiring redistricting of the wards to be based on non-partisan criteria and not to benefit any specific individual or political party?

In theory, yes, but from a practical approach how would these subjective standards be applied? A law that has no bite is useless.

17. Do you support public financing of municipal campaigns?

Yes, I believe such laws would level the playing field. Campaigns can be more issue driven opposed to focusing on who has the money.

18. Who are your top 5 contributors and how much has each contributed to your campaign? Please refer to a copy of my financial report which can be found at the Illinois Board of Elections website.

24. What additional revenue sources, if any, would you propose.

I support an aggressive marketing of existing licensing fees and services currently charged by the City and I also support a casino development project.

29. Do you agree with the criticism that City government is top heavy with management?

I have heard that criticism, but I would have to evaluate this after one year in office.

31. What measures will you vote for to reform the city pension plan and ensure its solvency? I will vote for any measure that seeks to demystify the pension formula, increase transparency in how the plan works, identifies the plan's success and failures, and includes periodic and objective evaluation.

32. How would you modify (if at all) the benefit and contribution levels and eligibility requirements for public employee pensions?

- 1) Raise the retirement age.
- 2) Eliminate the calculation based on previous salaries earned and implement a weighted average.
- 3) Modify cost of living adjustments.
- 4) Modify the double dipping and again base it on a weighted average.
- 5) NO MORE FURLOUGHS
- 6) Institute an aggressive plan to raise revenues and deal with the current pension situation.

33. Will you institute participatory budgeting to allow ward residents to vote on discretionary spending in your ward?

I will institute community think tanks and will consistently meet with leaders and listens to their concerns but ultimately this decision should be mine.

37. Before voting on privatization contracts, what will you do to ensure that they deliver the maximum return and best service for city residents in the long term?

These agreements should incorporate requirements that allow for an independent and periodic evaluation. I will not vote for any long-term agreement without an opt -out clause.

38. What procedures will you implement to ensure that privatization arrangements are not being used to move patronage workers outside of the scope of the Rutan decision requirements or any other anti-patronage rules or protocols?

See answer to Question 37.

39. How will you involve ward residents in planning?

We plan to launch an aggressive marketing campaign informing the resident that I am the new alderman. We will create TIF advisory board and community think tanks for ideas for aggressively improving our ward.

40. What is your long-range plan for development of the ward?

I am interested in exploring the creation of communities similar to Pilsen and Andersonville and pursue the tourism dollars.

41. How will you involve residents in planning, approval, and oversight of TIF districts?

I will create a TIF advisory board.

45. How do you propose to replace property tax revenue for CPS and other taxing bodies that is lost to TIF development?

I do not think revenue is lost from the creation of TIF's. As designed, TIF programs ultimately create revenue by returning property to the tax rolls.

47. Will you vote for an ordinance requiring that large corporate entities receiving \$250,000 or more in public subsidies, and their tenants, must pay their workers a living wage (currently \$11/hour)?

I believe the law proposes an eventual increase to \$13.00 per hour, so I would not support a law that is less than the current one. Additionally, I am not in favor of strict objective standards that leave little to no room for modification.

68. What is your assessment of Renaissance 2010 and its implementation in your ward as well as the City as a whole? Please include in your assessment the role of charter schools as well as the power to reconstitute schools.

Considering the recent moratorium on charter schools there is obviously more work to be done in providing the best education for all children regardless of the geographical area in which they live.

77. What should the City do to encourage and implement alternative forms of energy. See answer to Question 78.

78. What other environmental initiatives, if any, do you propose.

- a) Make it easier to "be green' and energy efficient. More and expansive recycling places throughout the city is a step in that direction
- b) Develop a "gray water" ordinance
- c) Create incentives to encourage the use of solar power
- d) Market existing energy efficient programs to the public

80. Do you support increased privatization of park facilities and services? Why or why not.

I would halt all privatization efforts until the current ones are evaluated.

88. If so, what can be done to redress them.

Replace the people in charge of the decision making process.

90. What changes, if any, would you suggest for the CAPS program?

The program benefits should be marketed to the public more aggressively.

92. What measures will you support to stop the schools to prison pipeline?

I support any measure that helps provide the best education for all children which in turn helps cut off the supply of individuals to school to prison pipeline.

93. What measures, if any, should the City Council adopt in response to recent court decisions striking down Chicago's handgun ban?

Enforce the existing laws and ordinances.

96. Please share your views regarding the functioning of the Independent Police Review Authority and whether it should operate more independently of the Police Department?

All matters involving the discipline of Police Officers should be removed from the Police Department and the State's Attorney's Office.

99. Please comment on current participation of individuals with disabilities in city hiring and contracts.

100. Please comment on current women and minority participation in city hiring and contracts. Be sure your comments include firefighter and police officer recruitment and promotion.

The City can seek to expand the set asides for people with disabilities, women and minorities.

103. Why or why not

This country was founded on being a gateway for diversity. I believe this Ordinance further that dream that America is a country of opportunity for all.

104. What employment, if any, other than alderman, do you intend to hold?

I am a lawyer and CPA in private practice and will continue to maintain those practices.

105. How will you divide your time between your aldermanic duties and your other occupation.

In the first 6 -12 months, I will not take on any new clients and concentrate mostly on my duties as Alderman.

106. Please specify the minimum hours per week you will spend performing your aldermanic duties.

I do not plan to devote a minimum or maximum number of hours per week, I will work until the job is done.

107. Please describe your service office staffing plan, including the number of staff, full and part time, how you will pay for them, and the number of hours per week that your service office will be open.

I will have three full-time employees and two part-time employees. I will pay their salaries primarily from the city budget but to attract the best qualified applicants, I would be competing with private sector employers. Therefore, if the funds are available, in order to attract and retain the best qualified staff, I will supplement salaries with campaign contributions to the extent allowable by law. Additionally, we hope to develop a relationship with the community so that we can also supplement our office staff with skilled and trained volunteers from the various neighborhoods.

108. What services need improvement in your ward? How will you achieve this Please describe your service office staffing plan, including the number of staff, full and part time, how you will pay for them, and the number of hours per week that your service office will be open?

We need to address the quality of life issues and a provide a quicker response time to requests for basic City services. See the answer to Question 108. Initially, the service office will be open from 9:00am to 5:00pm and one Saturday per month. After a period, I will evaluate the hours and service delivery, and change our hours of operation based on the needs of the constituents.

109. What are your top priorities for the Ward?

- 1) Uplift the Community
- 2) Community Preservation
- 3) Promote Peace
- 4) Quality Public Education
- 5) Economic Sustainability
- 6) Energy Efficient Living

110. How will you work with community groups and residents on City matters?

I plan to create Community Think Tanks and TIF Advisory Boards. I will be accessible to the community, transparent in executing my duties as Alderman and more importantly I will listen to the residents of the Fourth Ward.
