MANHASSET®

*Specialty Company
Yakima, WA*

MANHASSET® is the number one choice of schools, symphonies and orchestras worldwide.

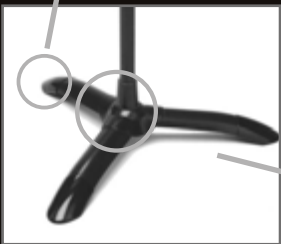

Lifetime Warranty

Manhasset's unique desk material is strong and resistant to bending.

Manhasset uses a heavy duty bolt to attach base to shaft.

Manhasset uses a metal base capable of withstanding over 180 kilograms of pressure.

Manhasset's base feet are made of heavy steel for maximum stability.

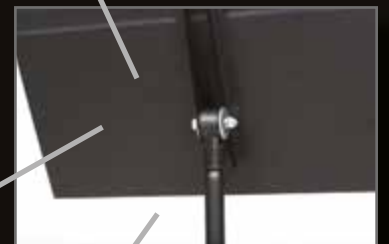

Manhasset's base is 25cm, allowing it to fit easily on crowded stages.

Manhasset desks are both durable and extremely light-weight. Less weight in the desk means it can hold a greater weight of sheet music.

Manhasset uses durable, high quality chroming on the upper shaft - more expensive to produce, but incredibly resistant to abrasion.

Manhasset friction neck is constructed with high quality spring washers - holding capacity will not diminish over the years.

No plastic bushings or connection points on base or shaft.

All riveted brackets and weld joints are fixed with precision and detail.
