## FiberLert™ Live Fiber Detector

Quickly verify fiber activity, polarity, and connectivity with the FiberLert™ Live Fiber Detector. No setup or interpretation required.

- Detects optical power in single-mode and multimode fiber wavelengths
- "Non contact" detector reduces the risk of contamination and damage
- Suitable for ports and patch cords, SM, MM, UPC and APC connections
- LightBeat™ flashes to indicate operation and battery status

# Fluke Installation Testers

## Fluke 1660 Series Installation Testers

The Fluke 1660 Series Installation Testers verify the safety of electrical installations in domestic, commercial, and industrial applications. They are easy to use and ensure that fixed wiring is safe and correctly installed to meet local standards.

## Auto Test reduces test time

Auto Test performs up to seven installation tests in one sequence, ensuring compliance with local installation regulations. This reduces the number of manual connections, thus decreasing the possibility of errors and reducing test time. (1664 FC only).

## Fluke Connect® enabled

The 1664 FC is Fluke Connect®-enabled and can send test results to your smartphone, save them to the cloud, and share measurements in real time with team members through a ShareLive video call. It's the fastest way to let your team see what you see and get approvals without leaving the field.
