

WHERE TO?

By Mark Halpin

Where are we heading now? Path clue answers, in order, begin in the top left square and, proceeding clockwise, follow a circuitous route through the grid. Answers to Row clues, entered where indicated, will help navigate your path. Encountering what's discovered in the two unclued rows en route should let you determine your destination (also findable by rearranging the letters falling into circles), which may be entered below the grid.
