Graham, TX 76450

Dear Garrett:

Southern Bleacher did a major outdoor bleacher project for Gloucester County College during the summer of 2012. Included in this project were new bleachers at our baseball field, softball field, soccer field and tennis courts.

To say that we were extremely pleased with the work done on this project by Southern Bleacher would be an understatement! The Southern Bleacher representatives led by Steve Treon and Jeff Dickinson were very professional and our experience with them was outstanding. The job was done on time with great attention to detail and looks fantastic.

There is not only a great improvement to the seating at our outdoor facilities, there is a tremendous new "look" to all of them as well. The colored riserboards are a tremendous feature that enhances the look and feel of each of our venues. I would recommend that anyone considering new outdoor bleachers include the colored riserboards feature. The number of compliments we have received about our bleacher upgrades has been tremendous and we appreciate Southern Bleacher's assistance in helping us make these major improvements to our outdoor facilities.

Sincerely,

A handwritten signature in cursive script that reads "Ron Case".

Ron Case, Director of Athletics
