

Midnight Sun Kayak

The clear waters of the Norwegian sea hide treasures rarely seen by human eyes. Quietly paddling beneath the glacier Svartisen you can explore the wonders surrounding the rugged islands of Meløy. You will experience the midnight sun from the place it can be appreciated best, from the kayak.

We use experienced instructors. The kayak adventure starts out from a quiet bay in Engavågen to allow time to get used to paddling. If a kayak does happen to flip over you can expect to be safely sitting in it again within a few minutes without needing to know the eskimo roll.

Level of difficulty

No previous experience is needed, however a moderate level of agility is required. The trip will be adapted to the size and physical level of the group.

Duration

The trip takes about 2.5 hours.

What to bring

- Warm clothing
- Extra set of dry clothes (including socks)
- Hat and gloves
- Sunglasses
- Food and drink if you want it

We have all needed kayak equipment.
